Re: Statement of Completion 37-08916

Dear Darla:

I am enclosing a modified Statement of Completion for water right permit 37-08916. Under item no. 5, the extent of use(s) completed as authorized 37-08916 are documented. This permit is for 0.43 acre feet of aesthetic storage provided by expansion of an existing pond adjacent to the new home to be built. An existing well now serves the old house which will be removed when the new home is built.

The irrigated acreage from the well will be reduced from 0.5 acres to 0.44 acres to provide mitigation for evaporation on the expanded acreage of the adjacent pond. During 2015, the irrigation was limited to 0.24 acres to mitigate for the first fill of the expanded area of the pond. In subsequent years, the irrigation will be limited to 0.44 acres.

Please contact our office if you have further questions.

Sincerely,
