CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **April 01, 2021**.
2. Subject to all prior water rights.
3. Rights 17-7118, 17-7136 and 17-7183 when combined shall not exceed a total diversion rate of 6.4 cfs, a total annual maximum diversion volume of 1,120 af at the field headgate, and the irrigation of 320 acres.
4. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
5. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
6. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature

below, this 11th day of March, 2016.

JAMES CEFALO

Water Resources Program Manager
