State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 17-07182

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **April 01, 2021**.
2. Subject to all prior water rights.
3. Prior to diversion under Permits 17-7181 and 17-7182, the permit holder shall designate a well in Section 25, 26, 35, or 36, T14S, R29E, that can be used by IDWR to monitor local aquifer levels and shall provide access to IDWR to conduct periodic water level measurements at the well.
4. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
5. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
6. Stockwater use is for 200 range cattle.
7. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
8. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature below, this 11th day of March, 20 16.

JAMES CEFALO
Water Resources Program Manager
