Subject: Permit 82-12257 Michael Stickles and Deamma Legg

Hello Shaun,

I spoke with Mr. Stickles and Molly Pusher of the US Forest Service this morning, and I have set up a plan concerning this permit. They will contact me directly concerning this permit. Mr. Stickles was confused, so I told him to work directly through me to ensure that everything worked out smoothly. Ms. Pusher informed me that she would supply the GPS coordinates and information from their investigation for the special use permit directly to me, so we do not need to accompany them on their visit.

Mr. Stickles stated that he received your letter, and I told him about the agreement I made with Ms. Pusher. I told him there was no need to contact you any further on this matter, since I will be taking over the file. I have a game plan set up on this one and have informed them what needs to happen to move this file forward. I will be keeping the file in my office, so if you receive any information or correspondence on this permit, please forward it to me as soon as possible, so I can move forward on the permit.

Thank you,

Daniel Nelson
