Hi Ashley,

Attached is some consumption history for the Lexington Pond. I only have back to 2005.

Initially the bills were done manually by United Water and we continued that practice for a time as well. The first report is a spreadsheet with those numbers, the second is a computer generated report for the remainder of the time. The Lexington Pond has a gallon meter, so these are gallons, not cf.

Let me know if you have any questions.

Thank you,

Kellie
