Re: Statement of Completion for Submitting Proof of Beneficial Use
37-08916, Request for Extension of Time 37-22847

Dear Jeff:

Enclosed is the Statement of Completion for water right 37-08916 which informs that the excavation and cleaning of the Little Makawao pond in connection with the new residence for Mr. Tom R. Norris has been completed.

The home to be built for this project has not been constructed, but the well for the domestic use has been completed and is being utilized for domestic use on an existing house which will eventually be removed. The well is to be utilized to provide water for mitigation of evaporation from the expanded area of the pond. This mitigation will be provided by decreasing the allowed irrigated area under water right 37-22847 from 0.5 to 0.44 acres. Since the new home has not been constructed, the landscaping is not completed, thus the well is not being used for the new landscaping and the Request for Extension of Time is required.

The required \$50 fee for the Statement of Completion is enclosed. Please contact our office if you have further questions.

Sincerely,

C.E. Brockway P.E, PhD.
