Travis, Jean

Thank you for the status update, and good luck with settlement. I'll put this in the files so no one starts setting up a prehearing process too soon.

Doug

Jean, Doug

I am communicating with Craig Hobdey regarding the protest to the extension application. I should hear back from him after he meets with Big Wood Canal Co. next Wed. If we can resolve the protest to the application for extension my client would like to proceed with that rather than the water bank application. Will get back to you late next week if that is ok. Can we get an extension for processing on the water bank so that it is not returned?

Thanks,

Travis
