CONDITIONS APPLICABLE TO ALL RENTED WATER RIGHTS

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. This rental agreement does not authorize the construction of a well.
11. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.

12. The following rights are diverted through point(s) of diversion described above: 41-7030, 41-7034, 41-7076 and 41-7081.
13. The period of use for the irrigation for Water Right 35-7005 described in this approval may be extended to a beginning date of 04/01 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 04/01 is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than the date of this approval.

Is this application being submitted with a lease application as a lease/rental package?

Yes ☐ No ☒

An *Application to Rent Water from the Board's Water Supply Bank* must be completed in accordance with the minimum requirement checklist below to be acceptable for processing by the Idaho Department of Water Resources (IDWR). This checklist is part of the rental application and must be included with the rental application. Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.

Applications to rent water should be submitted well in advance of the desired start date for the use of water. Rental applications may be submitted as early as November 1 of the year prior to the intended use of rental water. Rental applications submitted more than one year in advance of the proposed start date for water use will not be accepted and will be returned to applicants. Rental applications will not be processed if they are received after the end of the rental season of use.

One rental application per beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources. For multiple beneficial uses of water, individual rental requests should be submitted for each unique beneficial use of water.

For additional instructions on completing a rental application, visit the Department's website at www.idwr.idaho.gov.

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the water rights you are requesting to rent. Otherwise continue to Section 5 of this application form.

Please note: Diversion rates and volumes to be rented from a leased water right must be proportionate to the per acre diversion rates and per acre volume limits of the water right leased to the Bank. Applicants should query a water right's rental availability by reviewing active lease and rental documents, searchable via IDWR's website, to ensure all elements of a water right remain available in sufficient quantity to satisfy a rental request.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany the rental request. Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.

For leased rights with combined limits, applicants should request to rent against the combined limit diversion rate, volume or acre limits.

RE: Water Right Lease

Dear Mr. Webster,

I have applied for a continuation of the current lease of the Engleson Water Rights. Enclosed is a copy of that application as directed by your letter dated January 11. I was surprised to learn that the full rental payment was to be paid at this time. In the past rentals, I have had them come due April 1. I was not fully aware or prepared for this requirement, and had some discussion with Remington Buyer about this condition. I am submitting \$1000.00 dollars to ensure my rental and will pay the balance by April 2, 2016.

I have reviewed and signed the rental agreement, and believe it is accurate as per my request to the water rental pool.

In closing, I would like to thank you for your consideration. If you have any questions please call or write.

Sincerely,

Timothy P. Deeg

**RE: REQUEST FOR RETURN OF SIGNED RENTAL AGREEMENT AND PAYMENT FOR
WATER RIGHTS 35-2491, 35-7005, and 35-7648**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources ("department") mailed a **Water Supply Bank Rental Agreement ("agreement")** for your review and signature on January 11, 2016. The signed agreement and rental fee has not been returned to the department.

Please sign the rental agreement and return it with the rental payment in the amount of \$5,440.00 within ten (10) days of this letter to complete processing. Diversion and use of the water rights is not authorized under the proposed agreement until it has been signed by both the renter and the department. Any use associated with your proposed rental request before it has been executed is considered unauthorized and, if occurring, will be subject to any necessary enforcement action.

If the signed rental agreement and fee is not received by the department within the 10-day period, the rental application will be returned, and the proposed rental rights made available for other rental applicants. You can reapply to rent water from the Bank again in the future by submitting a new rental application form that will be processed in turn with other pending applications.

If you have questions regarding this matter, please contact me at 287-4910.

Sincerely,

Clay Webster

MEMORANDUM

To: Water Rights 35-2491, 35-7005 and 35-7648
From: Clay Webster
Date: 01/05/2016
Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: The Department received an application to rent water for the irrigation of 80 acres from Timothy Deeg on October 26, 2015 for the 2016 season. Modeling was provided by Brockway Engineering.

AUTHORITY TO FILE: This application was signed by Timothy Deeg. The property is owned by Otto Deeg. The applicant provided documentation that Ida Deeg is appointed as the executor of Otto Deeg's estate. She has signed a letter authorizing the use of this property. The POD is located on the property owned by Timothy Deeg.

WATER RIGHT VALIDITY: These rights were leased entirely to the WSB from 2015 through 2019. Satellite imagery shows that the POU for the leased rights are being idled per their lease contract.

INJURY TO OTHER WATER RIGHTS: None are anticipated. ESPA model analyses were provided with the applications. The direct model outputs for the rental show injury to the Neeley to Minidoka reach. However, it is acceptable to combine net affects in the adjacent river reaches combining the Neeley to Minidoka reach with the Near Blackfoot to Neeley reach. (See email in file from Jeff Peppersack dated February 26, 2014.) Combined, the two reaches have a negative depletion.

ENLARGEMENT OF USE: 35-7005 has a shorter season of use than the rental (5/1 to 10/31), the others share the same season of use (4/1 to 10/31). A shoulder condition will be added to the rental to accommodate 35-7005. They all have the same headgate and consumptive use requirement as the rental (4 af/ac and 3 af/ac) . No enlargement is anticipated.

LOCAL PUBLIC INTEREST: This rental will move the water from within the ESPA and Trust water area to outside of both of those areas. Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental PD is not subject to a Water District. Allen Merritt from the Southern Regional Office had no issue with this rental per his email dated 12/30/2015.

Well upon further review it appears they are renting it in basin 41. Since they did the model analysis with nothing that raised a flag I guess I have no issue with the rental.

These should probably go to Eastern since they administer basin 35.
