RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. On December 15, 2015, the Lessor filed an application to lease the water rights described below into the Water Supply Bank.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to the conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Conditions Applicable to All Leased Water Rights

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department, even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, nor does it improve the status of the right or accomplish the resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment after the following rental season.
11. The water right(s) leased to the bank are subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right is regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
13. A portion of these rights provides conveyance for other right holders in the shared delivery of water through the Hiawatha Canal. To prevent injury to other water right holders, the watermaster shall deliver 20% or 0.16 cfs of the leased portion of these rights into the Hiawatha Canal whether it is rented or not.
14. Unleased portions of these rights are limited to irrigation of a combined total of 6.6 acres in a single irrigation season.

Re: Ron and Lorraine Wilcox Water Leases; 37-20926 and 37-20924

Dear Ms. Palmer:

The purpose of this letter is to respond generally to water rights being leased to the Water Bank, which are conveyed in the Hiawatha Canal ("Canal") by the Hiawatha Canal Company, a.k.a. The Hiawatha Canal Water Users Association of Lateral or Laterals ("Canal Company"). Also, this letter will specifically address the proposed water being placed in the Water Bank for the aforementioned water rights.

The Hiawatha Canal Company is concerned about the amount of water being removed from the Canal and placed in the Water Bank by various water right holders. Generally, at this time, the Canal Company does not object to water rights conveyed in the Canal being placed in the Water Bank; provided that if the water rights are moved outside of the Canal, then the Water Bank should require twenty-percent (20%) of the right to be left in the Canal as conveyance loss. I suggest that the Department place a condition on the leases to this effect.

Providing you some historical perspective, the Canal Company filed for mitigation (conveyance loss) rights in the adjudication for rights that had been forfeited or abandoned out of the Canal. The Department agreed that the conveyance loss in the Canal was twenty-percent (20%), and therefore, entered recommendations accordingly. See e.g. water rights 37-22630, 37-22631, 37-22632 and 37-22633. This conveyance has been recognized by the Idaho Department of Water Resources in similar transfers. Leaving twenty-percent (20%) of the leased rights in the Canal will insure that all rights in the Canal continue to be delivered without injury to water right holders in the Canal.

As a condition of being leased, the Canal Company requests:

- 1. The Canal Company does not presently object to the water rights being placed in the Water Bank by Ron and Lorraine Wilcox under water rights 37-20924 and 37-20926, provided that twenty-percent (20%) of the right is left in the Canal as conveyance loss.**

Attachment 1D

2. Since the Applicants are proposing leasing only a portion of each right to the Water Bank, the Hiawatha Canal would require a measuring device be placed and ready for use in the Spring of 2016, at the headgate on the Hiawatha Canal where the Applicants divert their water. The measuring device would have to meet the current requirements for measuring devices as published by the Idaho Department of Water Resources.

3. Finally, the Canal Company would like to be notified if the water rights are eventually released from the Water Bank, or if the Water Rights are being leased again to the Water Bank after the expiration of the one- year lease period.

Thank You In advance for responding to this letter and addressing our concerns.

Sincerely,

HIAWATHA CANAL COMPANY

RE: WATER SUPPLY BANK LEASE CONTRACT FOR WATER RIGHTS 37-20924 and 37-20926

Dear Lessor:

Water rights 37-20924 and 37-20926 were leased into the Water Supply Bank (Bank) as of December 15, 2015, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2020**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.

If you have questions regarding this matter, please contact me at 287-4910.

RE: APPLICATIONS TO LEASE WATER RIGHT 37-20924 and 37-20926 TO THE WATER SUPPLY BANK

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2016**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your rights may not be available for immediate release if they have been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact me at 287-4910.

Narrative: The applicant wishes to place 13.3 acres of both rights in the Bank. They will continue to irrigate 6 acres. 2.2 acres will not be irrigated and 11.1 acres are being put in the Bank to protect from forfeiture. These rights are for 19.9 acres EACH for the same parcel that is only 8 acres in size. There are no combined conditions. Map provided by applicant includes land NOT owned by applicant. They cannot include this land in the lease. These rights were decreed for 30.6 acres. The Wilcox's quitclaimed 11/30.6 of each right to Remington Monroe Equine, this action severed 11.1 acres of the right from the appurtenant property. The current water right holder signed the application. These rights were decreed in 2010 and in the Bank in 2015. Forfeiture is not an issue. These rights are delivered thru the Hiawatha Canal. 20% will be left in the canal for conveyance loss. These rights are currently within WD 37.

Re: Ron and Lorraine Wilcox Water Leases; 37-20926 and 37-20924

Dear Ms. Palmer:

The purpose of this letter is to respond generally to water rights being leased to the Water Bank, which are conveyed in the Hiawatha Canal ("Canal") by the Hiawatha Canal Company, a.k.a. The Hiawatha Canal Water Users Association of Lateral or Laterals ("Canal Company"). Also, this letter will specifically address the proposed water being placed in the Water Bank for the aforementioned water rights.

The Hiawatha Canal Company is concerned about the amount of water being removed from the Canal and placed in the Water Bank by various water right holders. Generally, at this time, the Canal Company does not object to water rights conveyed in the Canal being placed in the Water Bank; provided that if the water rights are moved outside of the Canal, then the Water Bank should require twenty-percent (20%) of the right to be left in the Canal as conveyance loss. I suggest that the Department place a condition on the leases to this effect.

Providing you some historical perspective, the Canal Company filed for mitigation (conveyance loss) rights in the adjudication for rights that had been forfeited or abandoned out of the Canal. The Department agreed that the conveyance loss in the Canal was twenty-percent (20%), and therefore, entered recommendations accordingly. See e.g. water rights 37-22630, 37-22631, 37-22632 and 37-22633. This conveyance has been recognized by the Idaho Department of Water Resources in similar transfers. Leaving twenty-percent (20%) of the leased rights in the Canal will insure that all rights in the Canal continue to be delivered without injury to water right holders in the Canal.

As a condition of being leased, the Canal Company requests:

1. The Canal Company does not presently object to the water rights being placed in the Water Bank by Ron and Lorraine Wilcox under water rights 37-20924 and 37-20926, provided that twenty-percent (20%) of the right is left in the Canal as conveyance loss.

2. Since the Applicants are proposing leasing only a portion of each right to the Water Bank, the Hiawatha Canal would require a measuring device be placed and ready for use in the Spring of 2016, at the headgate on the Hiawatha Canal where the Applicants divert their water. The measuring device would have to meet the current requirements for measuring devices as published by the Idaho Department of Water Resources.

3. Finally, the Canal Company would like to be notified if the water rights are eventually released from the Water Bank, or if the Water Rights are being leased again to the Water Bank after the expiration of the one- year lease period.

Thank You in advance for responding to this letter and addressing our concerns.

Sincerely,

HIAWATHA CANAL COMPANY
