Conditions Applicable to All Leased Water Rights

- The water rights referenced above will be rented from the bank at the current rental rate.
- There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
- While a right is in the bank, the lessor may not use the right without approval of the Department, even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
- A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
- While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
- Rental of water under this right is subject to the limitations and conditions of approval of the water right.
- Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, nor does it improve the status of the right or accomplish the resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment after the following rental season.
11. The water rights leased to the bank are subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Use of water under this right is regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 37.
13. A portion of this right provides conveyance for other right holders in the shared delivery of water through the Hiawatha canal. To prevent injury to other water right holders, the watermaster shall deliver 20% or 0.37 cfs of the leased portion of these rights into the Hiawatha Canal whether it is rented or not.
14. The point of diversion for this right is locally known as headgate # 22 in Water District No. 37 for delivery to the Hiawatha Canal.
15. Right Nos. 37-22311, 37-22316 and 37-22321 are limited to the irrigation of a combined total of 31 acres in a single irrigation season.
16. Place of use is within portions of the Old Cutters Subdivision.
17. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).

4. GENERAL INFORMATION

- A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☒ No ☐
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).

If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to [Section 42-108, Idaho Code](#) and [IDAPA WSB Rule 37.02.03.25.02e](#).

- B. Please provide a description of the current water diversion and delivery system.

Current diversion and delivery system is the Hiawatha Canal.

- C. Describe any other water rights used for the same purpose at the same place of use as the water right being offered to the Bank. 37-22311, 37-22316, 37-22321

- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☒ No ☐

Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

- E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☒

If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased.

- F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. Water right was decreed in 2009. The land was undergoing development as Old Cutters Subdivision prior to 2009.

- G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒

If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See [Section 42-223, Idaho Code](#) for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed.

- H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan?

If yes, describe.

I hereby assert that the information contained in this application is true to the best of my knowledge, and that I have the authorities necessary to offer this water right for sale or lease to the Idaho Water Resource Board.

The Designated Applicant acknowledges the following:

1. Payment to the Designated Applicant is contingent upon the sale or rental of the water right from the Bank.
2. While a water right is in the Bank, the seller/lessor of the water right may not use the water right, even if the water right is not rented from the Bank.
3. A water right accepted into the Bank stays in the Bank until the Designated Applicant receives written confirmation from the Board or Water Supply Bank that the water right has been released from the Bank.
4. While a water right is in the Bank, forfeiture is stayed.
5. Acceptance of a water right into the Bank does not, in itself, confirm the validity of the water right or any element of the water right.

Re: City of Hailey Rights (37-22311, 37-22316, 37-22321, 37-22773, 37-22774, 37-22775 and 37-22776)

Dear Sir or Madam:

The purpose of this letter is to respond generally to water rights being leased to the Water Bank, which are conveyed in the Hiawatha Canal ("Canal") by the Hiawatha Canal Company, a.k.a. The Hiawatha Canal Water Users Association of Lateral or Laterals ("Canal Company"). For the reasons outlined below and on the conditions requested, the Canal has no objection to the aforementioned water rights being^a placed into the Water Bank.

The Hiawatha Canal Company is concerned about the amount of water being removed from the Canal and placed in the Water Bank by various water right holders. Generally, at this time, the Canal Company does not object to water rights conveyed in the Hiawatha Canal being placed in the Water Bank provided that if the water rights are leased to parties outside of the Canal, then the Water Bank should require twenty-percent (20%) of the right be left in the Canal as conveyance loss. I suggest that the Department place a condition on the leases to this effect.

Providing you some historical perspective, the Canal Company filed for mitigation (conveyance loss) rights in the adjudication for rights that had been forfeited or abandoned out of the Canal. The Department agreed that the conveyance loss in the Canal was twenty-percent (20%), and therefore, entered recommendations accordingly. See e.g., water rights 37-22630, 37-22631, 37-22632 and 37-22633. This conveyance has been recognized by the Idaho Department of Water Resources in similar transfers. Leaving twenty-percent (20%) of the leased rights in the Canal will insure that all rights in the Canal continue to be delivered without injury to water right holders in the Canal.

As a condition of being leased, the Canal Company requests:

1. The Canal Company does not presently object to the aforementioned water rights being placed in the Water Bank, provided that twenty-percent (20%) of the right is left in the Canal as conveyance loss; and

2. The Canal Company would like to be notified if the water rights are eventually released from the Water Bank, or if the Water Rights are being leased again to the Water Bank after the expiration of the lease period.

Thank you in advance for responding to this letter and addressing our concerns. If you have any questions, please do not hesitate to call me.

Sincerely,

HIAWATHA CANAL COMPANY
