

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

Ident. No. 25-14431
RECEIVED
FEB 19 2016
Department of Water Resources
Eastern Region

1. Name of applicant(s) PacifiCorp Phone 801-220-2252
Name connector (check one): ☐ and ☐ or ☐ and/or
Mailing address 1407 W North Temple #110 City Salt Lake City
State UT Zip 84116 Email Claudia.Conder@PacifiCorp.com
2. Source of water supply groundwater which is a tributary of Snake River
3. Location of point(s) of diversion:

TWP	RGE	SEC	Govt Lot	¼	¼	¼	County	Source	Local name or tag #
2N	37E	25		SE	NE		Bonneville	groundwater	14 wells

4. Water will be used for the following purposes:
Amount 0.47 cfs for industrial/water qual improvemt purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)
Amount 241 acre-feet for industrial/water qual improvemt purposes from 01/01 to 12/31 (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
5. Total quantity to be appropriated is (a) 0.47 cubic feet per second (cfs) and/or (b) 241 acre feet per year (af).
6. Proposed diverting works:
- a. Describe type and size of devices used to divert water from the source. Existing wells permitted under water right 25-07403
- b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No
- c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☒ No
- e. If well is already drilled, when? 1985-1997; drilling firm Andrews Well Drilling; well was drilled for (well owner) _____; Drilling Permit No. _____
7. Description of proposed uses (if irrigation only, go to item 8):
- a. Hydropower; show total feet of head and proposed capacity in kW. _____
- b. Stockwatering; list number and kind of livestock. _____
- c. Municipal; complete and attach the [Municipal Water Right Application Checklist](#).
- d. Domestic; show number of households _____
- e. Other; describe fully. non- consumptive water to be used for the containment of contaminants in compliance with Idaho Department of Environmental Quality Permit No. IDD000602631. See explanatory attached

25-14431

SCANNED
FEB 25 2016

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
2N	37E	25				I													n/a

Total number of acres to be irrigated: n/a

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?

This appropriation to be used with existing License 25-07403 which is for 0.45 cfs flow rate and 98 acre-feet annually.

The total flow from existing wells will be 0.47 cfs and total volume of 339 acre-feet.

10. a. Who owns the property at the point of diversion? PacifiCorp
- b. Who owns the land to be irrigated or place of use? PacifiCorp
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

PacifiCorp is permitted under IDEQ permit no. IDD000602631 to pump 210 gpm continuously for the non-consumptive use of groundwater in order to contain certain contaminants at this site. Given this flow rate, an annual volume of water equates to 339 acre-feet per year. The existing license 25-07403 does not provide sufficient water to comply with the IDEQ permit. This appropriation is being sought to supplement this existing license and meet the requirements of IDEQ. There are 14 wells permitted under the IDEQ permit. See map and explanatory.

12. Time required for completion of works and application of water to proposed beneficial use is n/a years (minimum 1 year).

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Explanatory to accompany Water Right Application to Appropriate

PacifiCorp is currently permitted under License 25-07403 for the beneficial use of improving water quality at this site which is owned by PacifiCorp. The original application was filed in 1985 and several extensions of time were granted to allow for the development of the site and to receive the necessary permit(s) from Idaho Department of Environmental Quality (IDEQ).

Currently there are 14 permitted wells in 2 separate aquifers. The well number references are listed in the table below:

Pumping Strategy Wells		
Aquifer 1	Standard pumping wells	R-6, A-1, B-1, C-1
	Contingency wells	R-5, R-11, & R-12
Aquifer 2	Standard pumping wells	R-2, R-7 A-2 R-10
	Contingency wells	B-2, R-8, MW-9

See map for locations and reference.

The original permit application, 25-7403, did not contemplate the total annual volume of water necessary for the project. This application to appropriate is being sought to provide the sufficient flow and volume necessary to comply with the IDEQ permit. The use of the water is NON-CONSUMPTIVE

25-07403	New appropriation	TOTAL
Flow: 0.45 cfs	0.47 cfs	0.47 cfs
Volume: 98 acre-feet	241 acre-feet	339 acre-feet

Location:
SE1/4NE1/4 Sec. 25
T.2N. R. 37E.

RE: Application to Appropriate non-consumptive water at PacifiCorp facility, Idaho Falls,
Bonneville County

To Whom it May Concern:

Please find enclosed an application to appropriate non-consumptive water at PacifiCorp's facility located in Idaho Falls, Bonneville County. This application is intended to supplement License 25-07403 which is an approved license/permit at the same location and from the same groundwater wells.

Also enclosed is the application fee of \$250.00. Should you have any questions, please contact me at 801-220-2252 or by email at Claudia.Conder@PacifiCorp.com

Respectfully,

Claudia Conder
Water Rights Administrator

Hi Claudia,

I am processing the application you submitted for PacifiCorp's facility in Idaho Falls. Item #12 on the application asks for the time (1- 5 years) required for completion of works and application of water to put water to beneficial use. This question was answered with "N/A". I understand that the system has been developed and the time required really is not applicable. When we issue a permit we are required to set forth a date when beneficial use must be made. The time required usually is between 1-5 years. I assume 1 year development time for this application?

Thanks,
Blake

Application For Permit No. 25-14431

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the POST REGISTER on 3/3/2016 and 3/10/2016. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Judea Jones
Administrative Assistant

DEQ:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced water right application. A copy of the application is enclosed for your reference.

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication.

Please contact this office if you have any questions regarding the application.

Sincerely,

Judea Jones
Administrative Assistance
