WATER RIGHT NO. 96-09215

FOR DEPARTMENT USE ONLY

Preliminary check by 6 Fee = \$100.00 Received by 6 # N031710 Date 1/28/2016

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, GARY SPACKMAN, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 96-09215 with the following:

CONDITIONS OF APPROVAL

1. Domestic use is for 2 homes.
2. The irrigation occurring under this domestic use shall not exceed 1/2 acre per home.
3. This right does not constitute Idaho Public Utilities Commission or Federal Energy Regulatory Commission approval that may be required.
4. This right is subject to the provisions of Sections 42-205 through 42-210, Idaho Code, restricting the sale, transfer, assignment, or mortgage of this right. Failure to comply with these provisions is cause for immediate cancellation of this right.
5. The right holder shall install and maintain a measuring device that can be used to determine the instantaneous rate of flow of water through the power generation system, or the right holder shall provide to the department a flow rate measurement or computation made by a certified water right examiner in accordance with actual system design and operation.
6. The rights for the use of water acquired under this right shall be junior and subordinate to all other rights for the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this right and shall not give rise to any claim against any future rights for the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
7. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the annual volume of water diverted and shall annually report the information to the Department.
8. The term of this water right license shall extend to December 2030. Prior to the expiration of the term, the Director may issue an order canceling all or any part of the use authorized herein, may establish a new term, or may revise, delete, or add conditions under which the water right license may be exercised. The order shall take effect on the date the current term expires. If the Director does not issue such an order, the term shall automatically extend to a length equal to the project's prior term and any prior conditions on the water right license shall remain in effect.
9. A fish screen of 1/4 inch or smaller mesh shall be installed and maintained at the point of diversion.
10. Use of water under this power right shall be non-consumptive.
11. Water diverted from Cocolalla Creek for power use shall be returned to the Creek after beneficial use.
12. This right does not grant any right-of-way or easement across the land of another.

Witness my hand this 12 day of February, 2016. 2016

Keith Franklin
For GARY SPACKMAN
Director
