Transfer No. 80503

WATER RIGHT NO. 36-15666

As Modified by Transfer No. 80503

CONDITIONS OF APPROVAL

4. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 130.
5. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
6. Prior to the diversion and use of water under Transfer approval 80503, the right holder shall install and maintain acceptable measuring devices at the authorized points of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
7. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
8. Pursuant to transfer approval 69270, use of water under this right may be affected by an agreement between the protestant and the right holder.
9. Pursuant to transfer approval 69270, the model used to calculate depletion effects and mitigation for the Milner to King Hill reach may also show gains in other reaches of the Snake River. Such gains have not been quantified at this time. The right holder retains the right to seek quantification of such gains resulting from this transfer approval 69270. Protestants retain the right to object to the quantification of such gains. If such reach gains are quantified and acknowledged by the Department, credits for such gains shall be available for use only after the Department has implemented a system for administering such credits.
10. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable county zoning and use ordinances.
11. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality monitoring and/or permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.
12. This right does not grant any right-of-way or easement across the land of another.
13. Place of use does not include federal public lands.
14. Commercial use is for a dairy located in the SE of S4 and SWSW of S3, T9S, R20E.
15. The points of diversion described above are located within land further described as Tract G-1 of Section 4, Township 9 South, Range 20 East, B.M.
16. The place of use described above includes land further described as portions of Tract G-1, Tract B, NESE and NWSE of Section 4 and a portion of the SWSW of Section 3, Township 9 South, Range 20 East, B.M.

WATER RIGHT NO. 36-15666

As Modified by Transfer No. 80503

CONDITIONS OF APPROVAL

17. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
18. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
19. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

5. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 130.
6. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
7. Prior to the diversion and use of water under Transfer approval 80503, the right holder shall install and maintain acceptable measuring devices at the authorized points of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
8. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
9. Prior to the diversion of water under this approval, the right holder shall comply with applicable county zoning and use ordinances.
10. Prior to the diversion of water under this approval, the right holder shall comply with applicable water quality standards of the Department of Environmental Quality.
11. Pursuant to transfer approval 69306, use of water under this right may be affected by an agreement between the protestant and the right holder.
12. This right does not grant any right-of-way or easement across the land of another.
13. Place of use does not include federal public lands.
14. Pursuant to transfer approval 69306, the model used to calculate depletion effects and mitigation for the Milner to King Hill reach may also show gains in other reaches of the Snake River. Such gains have not been quantified at this time. The right holder retains the right to seek quantification of such gains resulting from transfer approval 69306. Protestants retain the right to object to the quantification of such gains. If such reach gains are quantified and acknowledged by the Department, credits for such gains shall be available for use only after the Department has implemented a system for administering such credits.
15. Commercial use is for a dairy located in the SE of S4 and SWSW of S3, T9S, R20E.

Transfer No. 80503

WATER RIGHT NO. 36-15692
As Modified by Transfer No. 80503

CONDITIONS OF APPROVAL

4. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 130.
5. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
6. Prior to the diversion and use of water under Transfer approval 80503, the right holder shall install and maintain acceptable measuring devices at the authorized points of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
7. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
8. Pursuant to transfer approval 71454, the model used to calculate depletion effects and mitigation for the Milner to King Hill reach may also show gains in other reaches of the Snake River. Such gains have not been quantified at this time. The right holder retains the right to seek quantification of such gains resulting from this transfer approval 71454. Protestants retain the right to object to the quantification of such gains. If such reach gains are quantified and acknowledged by the Department, credits for such gains shall be available for use only after the Department has implemented a system for administering such credits.
9. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable county zoning and use ordinances.
10. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality monitoring and/or permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.
11. This right does not grant any right-of-way or easement across the land of another.
12. Place of use does not include federal public lands.
13. Commercial use is for a dairy located in the SE of S4 and SWSW of S3, T9S, R20E.
14. The points of diversion described above are located within land further described as Tract G-1 of Section 4, Township 9 South, Range 20 East, B.M.
15. The place of use described above includes land further described as portions of Tract G-1, Tract B, NESE and NWSE of Section 4 and a portion of the SWSW of Section 3, Township 9 South, Range 20 East, B.M.
16. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

WATER RIGHT NO. 36-15692

As Modified by Transfer No. 80503

CONDITIONS OF APPROVAL

17. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
18. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
