Subject: APPLICATION FOR Permit No. 36-16406

APP for Permit No. 36-16406

Jim, I am writing to see if you have come up with any further clarification of the above mentioned water application for the North Rim Fairways ASSN. We talked a couple of weeks ago and it was my understanding that you would check the file and give me some information as to the status and if there is something that the Assoc. must do in order to get the permit for this application. I realize it has been some time since the original application, but it is very important to us that we get a license approved by whatever means it will take to get an approval. Any help you can pass on to me would be appreciated.

Ben Neff, Watermaster.
