Describe what work has been completed toward the development of this water right:

If no work has been completed, show "none".

The District completed construction of a new well on the Rimrock system in 2015. However, they also lost one of the existing wells on this system (making the new well a replacement well).

Costing \$ ~500,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Development has not occurred as was anticipated at the time of application for permit, limiting the District's available funds to complete system improvements. Additionally, the District has needed to re-allocate funds to emergency projects (such as replacement of lost well capacity).

Permit holder(s) request an extension for five year(s).
