In preparing to list our home at 11900 N Hwy 52, Horseshoe Bend, Idaho for sale, we noticed that our application for water rights back in June of 2008 were denied (see letter). The rights in question are 65-18226 and 65-19672. The letter states that the ownership change was not processed because these water rights were not covered by the deeds included. I am including a deed specifying that these rights should be included. Please review and let me know how to proceed.

Thanks,

Dear Water Right Holder(s):

We have received and processed a Change of Ownership for a portion of the original Water Right as referenced above. This Change of Ownership required a split of the original water right resulting in renumbering this water right, using a new water right number to represent each split. The new water right number for your portion is referenced above and a copy is enclosed.

Water Right No.s 65-18226 and 65-19672 were not covered by the deeds included so the ownership change was not processed. If you purchased these rights, please send us a deed proving ownership. As such a refund of \$50 will be processed.

Your portion of this water right has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your water right, then no further action is required at this time.

Thank you for your patience, as we have had several water right changes to process. Please feel free to contact this office if you have any questions concerning the enclosed information or this letter.

Sincerely,

Jean Hersley
Office Specialist I
