Subject: Re: Request for Extension of Time Received for Permit No. 98-7907

Dear Darla Block,

Thank-you for offering the opportunity to extend our 2 year request to the maximum 5 year extension. We would like the 5 year extension. We are planning on having it completed within two years, but would appreciate the additional time in case of unforeseen delays. We are assuming that if it is completed earlier that we could request inspection at that time.

Thank-you again,

Carol Nichols

Dear permit holder:

The Department is in receipt of your request for extension of time to submit proof of beneficial use for the above mentioned water right permit. On this extension request you have asked for 2 years.

According to Section 42-204, Idaho Code, you are allowed an initial development period of 5 years and only one extension request after that for up to 5 more years. You have already had the initial 5 years allowed under the permit.

This extension request will be considered your last extension request allowed under due diligence or good cause. You could request that the Department modify your extension request from to reflect a 5 year extension in lieu of the 2 years currently requested on your form.

However, in order for me to modify your request for extension of time from a 2 year extension to a 5 year extension, I need written request from you stating that you would like to have your extension request form modified to reflect a 5 year extension in lieu of the 2 years currently stated on the form. A reply to this email could be used as your written request to have your form modified. Please respond as soon as possible, and be as specific as you can in your request.

Once I receive your reply, I will be able to move forward with processing your extension request.

Sincerely,

Darla Block
