ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above are not available to be rented from the bank.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, the lease term expires, or upon request from the lessor to change the term of the lease, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed.
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season.
 - b. If a change in ownership is processed by the Department during a rental season, rental payment will be made to the person or entity who is the lessor of record at the beginning of that rental season.
 - c. New lessor(s) of record will receive payment after the following rental season.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The use of water for irrigation under this right may begin as early as March 1 and may continue to as late as November 15, provided other elements of the right are not exceeded. The use of water before April 1 and after October 31 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

Dear Lessor:

Water right 2-2175A was leased into the Water Supply Bank (Bank) as of March 9, 2015, in accordance with the enclosed executed lease contract. **Your water right, as described on the lease contract, is considered leased into the Bank and should remain unused until it is formally released from the Bank.** More information and further restrictions placed on your water right while leased can be found in conditions of acceptance of the lease contract. **RE: REQUEST FOR RETURN OF SIGNED WATER SUPPLY BANK LEASE CONTRACTS FOR
WATER RIGHT(S) 2-2175A and 2-2197A**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant,

The Department of Water Resources (Department) mailed **two original Water Supply Bank Lease Contracts for your review and signature** on January 6, 2016. The signed contracts have not been returned to the Department.

Please sign both original Lease Contracts and return them to the Department within ten (10) days of this letter to complete processing. The Lease Contract is not considered final until both you and the Department have signed.

If the signed lease contracts are not received by the Department within the 10-day period, the lease application(s) will be returned, and the application fee will not be refunded. You can reapply to lease the water right(s) in the future by submitting new application form(s) along with applicable fees.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right form. This and other water right forms are available from the Department's web site at www.idwr.idaho.gov.

RE: APPLICATIONS TO LEASE WATER RIGHT 2-2175A and 2-2197A TO THE WATER SUPPLY BANK

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2015**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your rights may not be available for immediate release if they have been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

The Department did not receive an application to lease water right 2-10462, which overlaps with water right 2-2175A and 2-2197A, into the Bank in 2015. Therefore, water rights 2-2175A and 2-2197A are considered leased to the Bank for the 2015 season but will be un-rentable.

If you have questions regarding this matter, please contact me at 287-4910.

MEMORANDUM

To: Water Right No(s). 2-2175A

From: Jean Hersley

Date: July 15, 2015

Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: This application was received on March 9, 2015. The applicant wishes to place 82.44 acres, 1.15 cfs of 2-2175A for the 2015 irrigation season. These are the pivot corners. Water Right Permit 2-10462, whose current owner is Basin and Project, overlaps this water right. Therefore, this right is not rentable without the same portions of permit 2-10462 leased to the Bank also.

1/6/2016- The Department did not receive an application to lease water right 2-10462 into the Bank for 2015. We will process this lease as "un-rentable" to fulfill the request to place this right in the Bank for the 2015 season.

AUTHORITY TO FILE: This application was signed by David Spurling, Sr. VP.

WATER RIGHT VALIDITY: This right was decreed in 2011. Irrigation of the corners took place in 2013. Pivots were installed in 2015.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right(s) are not subject any Water District at this time.

**RE: APPLICATION(S) TO SELL LEASE A WATER RIGHT TO THE WATER SUPPLY BANK
FOR WATER RIGHT NO(S). 2-2175A and 2-2197A**

******TIME SENSITIVE RESPONSE REQUIRED*****

Dear Lessor:

The Department of Water Resources received applications to Lease Water Rights 2-2175A and 2-2197A from you on March 9, 2015. The department contacted you about a third water right (2-10462) with overlapping acres and informed you the Department needed to wait until a license was issued for water right 2-10462. A license was issued on October 27, 2015. The portions of water right 2-10462 that overlap 2-2175A and 2-2197A need to be placed in the Bank to avoid enlargement if these rights are rented.

Because the Department cannot process the Applications to lease these water rights without the lease application for water right 2-10462, we will hold any action on your applications pending receipt of the necessary information. If we do not receive the necessary information within 30 days these applications will be denied because they cannot be processed without the additional water right being placed in the Bank.

If you have any questions or no longer have an interest in the water right, please contact me at (208) 287-4910.
