

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF APPLICATION	)	
FOR TRANSFER NO. 79374 IN THE	)	
NAME OF RIVENDALE LLC	)	PRELIMINARY ORDER REJECTING
_____	)	APPLICATION FOR TRANSFER

This matter having come before the Department of Water Resources (Department) as a result of an application to transfer water rights, the Department finds, concludes, and orders as follows:

FINDINGS OF FACT

1. On May 27, 2014, Josh Lunn on behalf of Rivendale LLC applied to the Department for authorization to add a point of diversion for 1.11 cubic feet per second of water diverted from wastewater tributary to the Snake River for irrigation purposes in Owyhee County in accordance with decreed Water Right 51-12809. The transfer application was designated No. 79374 by the Department.

2. On August 7, 2014, the Department mailed Rivendale LLC a letter requesting an amendment, exchange or withdrawal of transfer application No. 79374 due to concerns of enlargement. In the letter, the Department informed Rivendale LLC that if they did not respond to the request within 60 days, the Department would reject the transfer application.

3. On August 28, 2014, the Department received a request from Rivendale LLC to interrupt processing the application for six months. The request was approved on that date.

4. On February 26, 2015, the Department received a request from Rivendale LLC to interrupt processing the application for an additional six months. The request was approved March 2, 2015. The transfer application would be rejected without a reply by August 28, 2015.

5. As of this date, the Department has not received a response from Rivendale LLC to the request for additional information and/or modification of transfer application No. 79374.

6. Idaho Code §42-222 says, in pertinent part:

The director of the department of water resources shall examine all the evidence and available information and shall approve the change in whole, or in part, or upon conditions, provided no other water rights are injured thereby, the change does not constitute an enlargement in use of the original right, the change is consistent with the conservation of water resources within the state of Idaho and is in the local public interest as defined in section 42-202B, Idaho Code, the change will not adversely affect the local economy of the watershed or local area within which the

source of water for the proposed use originates, in the case where the place of use is outside of the watershed or local area where the source of water originates, and the new use is a beneficial use, which in the case of a municipal provider shall be satisfied if the water right is necessary to serve reasonably anticipated future needs as provided in this chapter. The director may consider consumptive use, as defined in section 42-202B, Idaho Code, as a factor in determining whether a proposed change would constitute an enlargement in use of the original water right.

CONCLUSIONS OF LAW

1. Without the exchange application or additional information requested from Rivendale LLC, the Department cannot ascertain that the change in water use proposed in transfer application no. 79374 will not result in an enlargement in use of Water Right 51-12809.
2. The Department should reject transfer application no. 79374.

ORDER

IT IS HEREBY ORDERED that transfer application no. 79374 in the name of Rivendale LLC is **REJECTED** without prejudice.

Dated this 25th day of January, 2016.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT – POINT(S) OF DIVERSION

This form may be used to apply to change and/or add points of diversion for existing water rights and to report an ownership change for an entire water right(s) in connection with the proposed point of diversion change(s). Do not use this form to apply for changes to other elements of a water right or to report an ownership change for a portion of a water right. See the Application for Transfer Instructions for help completing this form and for mailing addresses of Department offices where your application can be submitted.

Check all that apply:

- ☐ Change diversion point(s) ☒ Add diversion point(s) ☐ Ownership change

1. APPLICANT(S) Rivendale LLC Phone 208-841-5672
2. MAILING ADDRESS 52356 Hwy 78 City Hammett
State ID Zip 83627 Email margenelunn@yahoo.com

- ☐ If the applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign for the applicant.
☐ If the applicant is not the current water right(s) owner, attach documentation of authority to file the application.
☐ If the application includes a change in ownership of water right(s), attach a copy of the conveyance document, such as a warranty deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property conveyed or description of the water right if no land is conveyed. Additional fee(s) required for water right ownership changes; see fee schedule.
☐ If the application is not signed by the applicant, attach a Power of Attorney or other documentation providing authority to sign for the applicant.

3. LIST WATER RIGHT NUMBER(S) 51-12809

- ☒ Attach a copy of the water right(s) as recorded, available at www.idwr.idaho.gov, Water Right Transfers, Step 1, or by contacting any Department office.

4. TOTAL AMOUNT OF WATER transferred is 1.11 cubic feet per second and/or _____ acre-feet per annum.
(diversion rate) (storage volume)

5. POINT OF DIVERSION – Describe all the point(s) of diversion to be included on the water right(s) after the proposed change.

- ☐ Attach Eastern Snake Plain Aquifer (ESPA) analysis if this transfer proposes to change a point of diversion affecting the ESPA. ESPA analysis information is available at www.idwr.idaho.gov, Water Right Transfers, Online Resources.

Twp	Rge	Sec	Govt Lot	¼	¼	¼	County	Source	Local name or tag #
6S	7E	12		NW	NW	NE	Owyhee	Snake River	
6S	7E	2	5				Owyhee	Snake River	

6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

The diversion point is within the Indian Cove Irrigation District which is responsible for conveyance of water.

- b. Who owns the property at the point(s) of diversion? Rivendale LLC, Indian Cove Irrigation District

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

An existing easement dating to 1927.

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently leased to the Water Supply Bank,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe _____

7. MAP - ☒ Attach a map of the diversion, measurement, control and distribution system. Clearly label the map with township, range, section and $\frac{1}{4}$ $\frac{1}{4}$ of section information. The *Map Tool*, available at <http://maps.idwr.idaho.gov/TransferApplicationLayouts/> provides a satisfactory template for creating the required map.

8. SIGNATURE - The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

Administrative Assistant

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Application for Transfer 79374 and Application for Permit 51-13109

Dear Applicant:

Recently you requested more time to provide additional information for the above referenced applications.

Your request is approved. The information requested by the Idaho Department of Water Resources (IDWR) on August 7, 2014, is therefore due by **August 28, 2015**, to prevent the applications from being rejected and/or voided.

More information about water rights and other matters administered by IDWR is available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

Dear Steve,

Thank you for your response. I will have to spend a little more time researching and investigating the issues you raised before I can provide IDWR a response. So, I would like to request an additional six months to respond to the questions posed in your letter regarding application for transfer (#79374) and application for permit (51-13109~~8~~).

I have a question about the priority of this application if approved. Will the priority of the application be affected if I take 6 months to respond to your questions? In other words, if someone also applies for the same POD or POU after I submitted my original application, but they properly complete or satisfy any clarifications that IDWR requests before I complete my responses to IDWR's questions, will they have a senior water right to mine, despite mine being submitted earlier?

Sincerely,

Josh Lunn

RE: Application for Transfer No. 79374, Water Right No. 51-12809

Dear Applicant:

The Idaho Department of Water Resources (IDWR) cannot process your application for transfer to add a point of diversion (POD) on the Snake River. The river POD you indentified is currently used for your Snake River rights 2-2391B and 2-2402 and is upstream from the waste water POD for 51-12809.

A POD can be moved upstream under an approved application for exchange but not an application for transfer. The following information addresses issues for an exchange application.

POD The existing waste water POD is in Government Lot 5, NENE Section 2 if you want to retain use of that point. The existing river POD is in Government Lot 5, NWNW Section 1 if you want to use that point. If you want to use both PODs, specify the maximum amount of water to be diverted from each point (how much to exchange?).

Map The map you provided shows the existing waste water POD ("pond"), a river POD, and a third POD at the "end of the canal" in Section 12. A POD in Section 12 would not be applicable to an exchange application.

Fee An exchange application fee would be \$580.

IDWR Concerns for Exchange Application

An exchange to "divert waste water from the Snake River" most likely cannot be approved unless you address the following concerns.

1) Enlargement of Use. Demonstrate the amount of waste water you want to divert upstream from the river is typically available at the waste water POD and will flow into the river at that point. How will the inflow of waste water to the river be controlled and measured? This should include some discussion of right 51-7154 (drain water), probably diverted at the same waste water site.

2) Conservation of Water Resources. Land irrigated under 51-12809 is within a larger permissible place of use (PPU) that includes several of your rights from the river, a drain and waste water. Also, waste water is combined with Snake River water delivered to at least some of the PPU by Indian Cove Irrigation District. The combined river rights provide a full duty of water (at least 1 inch/acre) for most or perhaps all of the PPU acres. Why is it necessary to divert more water from the river for the same land?

3) Local Public Interest. Snake River diversions between Swan Falls Dam and Milner Dam are under watermaster regulation from the recently formed Snake River Water District #2. This requires considerable expense for a watermaster to ensure rights are properly used under the priority system. Why is it in the public interest to require more watermaster expense to regulate the amount of waste water possibly flowing into the river in exchange for diverting the same amount from the river?

Adding or changing the waste water POD to Section 12 would require an approved application for transfer. The following information addresses issues for a transfer application.

POD The existing waste water POD is in Government Lot 5, NENE Section 2 if you want to retain use of that point. The proposed waste water POD is in NWNWNE Section 12 if you want to add that point. If you want to use both PODs, specify the maximum amount of water to be diverted from each point.

Map A map should identify which waste water POD(s) you want to use.

Fee A transfer application fee would be \$580.

IDWR Concerns for Transfer Application

1) Enlargement of Use. Demonstrate waste water is available at the Section 12 site. Show how the amount of waste water to be diverted from the Section 12 POD will not exceed the amount available at the current Section 2 POD. If you want to use both PODs, specify the maximum amount of water to be diverted from each point. How will one or both waste water PODs be measured and controlled to prevent more water being diverted than authorized under 51-12809?

2) Indian Cove Irrigation District. Provide a letter from the irrigation district confirming diversion of waste water in Section 12 will not interfere with deliveries of district water to other users.

Options for Transfer and/or Exchange Application(s)

Please consider one or more of the following options.

- Withdraw the transfer application. A refund will be issued if no other filing is submitted.
- Amend the transfer application if applicable: delete the river POD, add (or change to) waste water POD in Section 12. An amended transfer will require another \$290.
- File an exchange application to divert upstream from the river in exchange for waste water flowing into the river, \$580 fee. You only need to pay another \$290 if you withdraw the transfer application, allowing the payment from that to be applied to an exchange application.

Application 79374
August 7, 2014
Page 3

- Additional information described above must be submitted for an amended transfer application and/or an exchange application.
- Request up to six (6) months more time to provide your response.

Transfer application 79374 will be rejected without a timely written reply within the next sixty (60) days. Unfortunately, refunds are not available for rejected applications.

IDWR forms and a reference map are included for your convenience. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to these matters.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Lester", with a stylized flourish at the end.
