Subject: Transfer of water right 79-14232
Attachments: Notice-of-Abandonment-of-Water-Right.pdf; Xfer80029_corrected.pdf

Mr. Mullinix,

As we discussed the other day on the telephone, your transfer application for water right 79-14232 (transfer 80029) should be resubmitted to either reflect the entire water right amount or to specify what is to be done with the remaining portion. As you recall, your right was decreed by the SRBA court as 0.23 cfs and irrigation of 20.1 acres. You submitted your transfer application based on an out-of-date record of your water right that authorizes only 0.18 cfs and irrigation of 19.7 acres.

I've attached an updated transfer application that reflects the entire 0.23 cfs of your water right. Please review the application to ensure it is complete and correct, then sign and return it to our office with a \$300 fee and we will continue processing it.

Alternatively, you can proceed with the existing application as submitted, but you must provide us with some instruction regarding what to do with the remaining portion of your water right (0.05 cfs). You mentioned you may want to abandon that portion. If you choose this alternative, please complete the attached "Notice of Abandonment of Water Right" form, sign and notarize and return it to us.

If you have any further questions, please call my office.

Sincerely,

Nick Miller
