Conditions Applicable to All Leased Water Rights

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department, even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, nor does it improve the status of the right or accomplish the resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment after the following rental season.
11. The water rights leased to the bank are subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. When combined with all other rights, the leased rights shall provide not more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
13. Unleased portions of rights 51-7108A, 51-13035, and 51-13037 are limited to irrigation of a combined total of 600.5 acres in a single irrigation season, and a total combined annual diversion volume of 2,402 af.
14. Unleased portions of rights 51-13035 and 51-13037 when combined shall not exceed a total annual maximum diversion volume of 897.1 af at the field headgate, and the irrigation of 224.3 acres.
15. Unleased portion of 51-7108A is limited to the irrigation of 456.2 acres within the authorized place of use in a single irrigation season.
16. Unleased portion of 51-13035 is limited to the irrigation of 125.3 acres within the authorized place of use in a single irrigation season.
17. Unleased portion of 51-13037 is limited to the irrigation of 179.5 acres within the authorized place of use in a single irrigation season.

13 Narrative		

The Department received the applications to rent portions of 51-13035 and 51-13037 into the WSB on November 4, 2015. Initial review of these applications revealed that they had a Volume and Acre Limit combined with 51-7108A. The consultant was contacted to provide a Lease Application for the overlapping portions of that right. These applications were provided from Brockway Engineering for Global Ag Properties USA LLC. They also needed to provide authority to sign and a W9 for these applications. The third application was submitted on December 24, 2015. Rights have been in the Bank since 2010. Forfeiture is not an issue. The 76.6 acres being offered to the Bank has overlaps with all three water rights. See attached excel sheet for limits on water rights.
