David,

Attached to this email is a map of your property with what you had explained as your place of use. There has been no change to the number of acres that are irrigated in each 40 acre tract, the place of use has been adjusted to be on property owned by you and represent where you are able to irrigate. Would you please take a look at it and let me know if this is correct. An email response will work.

Thanks,

Nathan Erickson
