CONDITIONS APPLICABLE TO ALL RENTED WATER RIGHTS

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any pending permanent transfer applications that the renter has filed to modify other water rights for irrigation of the subject lands nor shall it prejudice any future rental agreement that may be made of the subject water right after this rental agreement expires.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.

8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
11. Use of water under this agreement will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 72A.
12. The point of diversion described is the headgate for the Highline Ditch.

DEPARTMENT OF
WATER RESOURCESApplicant Name: ANTONY YACOMELLAIs this application being submitted with a lease application as a lease/rental package? Yes ☐ No ☒

An *Application to Rent Water from the Board's Water Supply Bank* must be completed in accordance with the minimum requirement checklist below to be acceptable for processing by the Idaho Department of Water Resources (IDWR). This checklist is part of the rental application and must be included with the rental application. Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.

Applications to rent water should be submitted well in advance of the desired start date for the use of water. Rental applications may be submitted as early as November 1 of the year prior to the intended use of rental water. Rental applications submitted more than one year in advance of the proposed start date for water use will not be accepted and will be returned to applicants. Rental applications will not be processed if they are received after the end of the rental season of use.

One rental application per beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources. For multiple beneficial uses of water, individual rental requests should be submitted for each unique beneficial use of water.

For additional instructions on completing a rental application, visit the Department's website at www.idwr.idaho.gov.

 Email Address _____ Phone Number _____

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use, and water diversion, delivery and distribution systems. Make sure the place of use is outlined with an obvious, bolded line. For irrigation purposes, note that the place of use outlined on your map cannot exceed the number of acres you are proposing to rent. Attach the map to this application and label it Attachment 2.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe the purpose of your rental request. Include any anticipated rates of water application, water use practices or number of stock (if any). If the proposed use is not for irrigation, please provide a detailed description of the proposed use and how you determined the amount of rental water required. Attach additional sheets if required and label it Attachment 3A:

Supplement water for irrigation after 1910
priority "High Water" has been established

B. Enter the desired and/or minimum necessary rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Acres (if applicable) (Acre)
CFS	6667 AF	CFS	AF	37 AC

Sometimes water rights available for rent provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. Enter the proposed start date and latest possible start date for using rental water. Also provide the number of years you would like to rent water:

Proposed Start Date (month/day/year)	Latest Possible Start (month/day/year)	* Proposed Rental Duration (Max 5 Years)	** For multi-year rentals, indicate whether you desire to rent water for remaining years if a rental request cannot be approved for the first year?	
<u>As dictated by</u>	<u>Termination of 1910 rights</u>	<u>5</u>	☒ Yes, approve rental for all remaining future years.	☐ No, return rental request if first year is unapprovable.

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.
 ** Subject to the availability of rentable water. A multi-year rental that cannot begin during the first year requested may be approved for some or all remaining years, depending on availability. Rental requests will be returned if no water is available to rent in the first and/or subsequent years of the rental request.

LOT 10	14N	19E	7	SW	NW	NW	Custer	

The entry in this grid must match the map from item 2 on the application.

- E. Do you own and/or possess the authority to divert water from the above POD(s)? Yes ☐ No ☒
If no, provide documentation from the owner/operator confirming your authorization to use the POD(s) and label it Attachment 3E.
- F. Do any POD(s) identified in Question 3D divert from a water source that may require water modeling? Yes ☐ No ☒
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.
- G. Has water modeling been provided with your rental request? Yes ☐ No ☒
If yes, include as Attachment 3G. Otherwise please explain why modeling was not provided:

Rental applications that require modeling will be returned if modeling is not provided.

- H. Specify the proposed beneficial use: ☒ Irrigation ☐ Commercial ☐ Industrial ☐ Municipal
☐ Groundwater Recharge ☐ Mining ☐ Stockwater ☐ Other: _____
- I. Refer to the map you created in item 2 and specify below the places you propose to use water. If for irrigation, specify the number of acres to be irrigated per ¼ ¼ tract. Otherwise indicate usage by marking the ¼ ¼ tracts with the first letter of your proposed use identified above:

Application to Rent Water (Continued)

M. List all other water rights and sources of water at the rental place of use for the same purpose and explain why additional water is required. Include privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company, or any other water deliver entity:

Our properties only have priority 1910 High water rights / When they are exhausted we need supplemental water to finish irrigation season

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the water rights you are requesting to rent. Otherwise continue to Section 5 of this application form.

Please note: Diversion rates and volumes to be rented from a leased water right must be proportionate to the per acre diversion rates and per acre volume limits of the water right leased to the Bank. Applicants should query a water right's rental availability by reviewing active lease and rental documents, searchable via [IDWR's website](#), to ensure all elements of a water right remain available in sufficient quantity to satisfy a rental request.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany the rental request. Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.

For leased rights with combined limits, applicants should request to rent against the combined limit diversion rate, volume or acre limits.

Elements of Water Rights Leased to the Bank (Contract Details)								Leased totals minus water actively engaged in rental agreement equals rental availability	Rental Request		
Water Right Number	Nature of Use	Water Source	Rate (CFS)	Volume (AF)	Acres (AC)	Start (year)	End (year)		Rate (CFS)	Vol. (AF)	Acres (AC)
72-2149F	Irrigation	mosquito flat reservoir		6667	37	2007	indefinite			6667	37

									CFS	AF	AC

Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it Attachment 4B:

We have been renting this water for the past 5 years and have successfully completed to growing season with this water and would have had failed crops without 666

- C. Does your rental request propose to change the nature of use for any water right(s) being requested? Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented, as well as the new consumptive use amount for your proposed beneficial use. Attach a separate page if space is insufficient and label it Attachment 4C:

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☐ No ☐

If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

We have had the previous rental on this water since 2010

The water is not available for sale except through rental program.

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒

If yes, describe: _____

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒

If yes, describe the date and location of the NOV.

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws.

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO. 72-2149F**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$1,133.90 was calculated based on the current rental rate of \$17.00 per acre-foot times a diversion volume of 37.0 acre-feet. An annual payment shall be received by the Department prior to the execution of this agreement and prior to February 15 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check for \$1,133.90 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing. Pursuant to the Water Supply Bank Rules, 90% or \$1,020.51 of the rental fee will be paid to the lessor(s) and 10% or \$113.39 will be retained by the Department to offset administrative costs.

If you have any questions, please contact me at (208) 287-4933.

MEMORANDUM

To: Water Right(s) 72-2149F
From: Cherie Palmer and Steve Visosky
Date: December 28, 2015
Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: Antony Yacomella submitted this rental application on October 30, 2015. The applicant is seeking late season water to supplement his 37 acre existing 1910 "high water" rights. The applicant previously had a 5 year rental of this same water right. The applicant is proposing to use this water for another 5 years (2016-2020).

AUTHORITY TO FILE: The applicant owns the rental place of use and acquired consent from the Highline ditch to deliver the proposed water.

WATER RIGHT VALIDITY: This right has been leased into the Bank since 2008. The leased place of use is receiving water but, is receiving water through water right no. 72-16628. Please see the enlargement section for more details of the overlap.

INJURY TO OTHER WATER RIGHTS: There is no indication there will be any injury as a result of this rental. This water right will be delivered based on priority date just as it as in the past. The re-diversion point will be moved upstream around a mile or so. The PDs between those two points are all senior to this water right except for right 72-2149B, E & H (which came from the same parent of 72-2149F and share the same priority date). A letter attached with the rental application from Rick Philips (watermaster 72-A) stated that the Highline had no problems or issues delivering the water to Yacomella when requested. An email was sent to Rick Phillips asking is any parties would be injured through this rental on 12/16/15 and as of 12/28/15, there was no response. It would appear that the owners of water rights 72-2149 B, E & H will not be impacted by this rental.

ENLARGEMENT OF USE: Historically, water right no. 72-2149F was developed in conjunction with the water use authorized by water right no. 72-16628.

Summary of rights:

Right No.	72-2149F	72-16628
Priority Date	6/3/1958	7/22/1910
Source	Challis Creek	Challis Creek
Beneficial Use	Irrigation Storage & Irrigation from Storage (Mosquito Flats)	Irrigation
Place of Use	14N 19E Sec. 21 SESW – 37 acres	14N 19E Sec. 21 SESW – 37 acres
Owner	Sechrist	Sechrist

However, right 72-2149F was established as "stored" water, not live water. It is permissible to separate rights 72-2149F and 72-16628 if the applicant is seeking a supplemental right at the rental location that is equal to its original situation. Yacomella owns water rights 72-32H, J, & K for a total of 37 acres which are located at the

proposed rental POU. These rights contain a priority date of 7/22/1910. Meaning, the historical use at the leased location will be equal to the use at the rental location, resulting in no enlargement issues.

Upon approval, the rental agreement for this water right will fully use all of the water available under the lease for the entire five year lease (through 12/31/2020).

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The rental PD and POU are within Water District 72A-Garden and Challis Creeks. Comments were sent to the watermaster and southern regional office to ensure there are no issues with this rental. Allen Merritt responded on 12/22/15 via email stating that he did not have any issues with the rental. As of 12/23/2015, Rick Phillips did not respond with any comments or concerns.

Allen and Rick,

Antony Yacomella has submitted a rental application for 37 acres of irrigation from Challis Creek. The water right he is requesting is 72-2149F.

Please read my attached memo and let me know if you have any concerns. Rick, I highlighted a section of my memo that needs special attention. I want to make sure no parties are injured through this rental.

Thanks and let me know if you have any questions.
