

State of Idaho
Department of Water Resources
Permit to Appropriate Water

NO. 82-12257

Priority: November 09, 2015

Maximum Diversion Rate: 0.02 CFS

This is to certify, that MICHAEL H STICKLES
102 HUNTERS WAY
GRANGEVILLE ID 83530

And/Or

DEANNA R LEGG
102 HUNTERS WAY
GRANGEVILLE ID 83530

has applied for a permit to appropriate water from:

Source: SPRING

Tributary: SINKS

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
STOCKWATER	01/01 to 12/31	0.02 CFS

LOCATION OF POINT(S) OF DIVERSION:

SPRING, L2, (NE1/4, SW1/4, SE1/4), Sec. 23, Twp 27N, Rge 03E, B.M., IDAHO County

PLACE OF USE: STOCKWATER

Twp Rge Sec	NE				NW				SW				SE				
	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	Totals
27N 03E 23																X	

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **January 01, 2017**.
2. Subject to all prior water rights.
3. This water right is also subject to the Special Use Permit approved by the Forest Service as well as other state and federal laws.
4. This right does not grant any right-of-way or easement across the land of another.
5. Stockwater use is for 14 head Mixed Stock.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Signed this 31
day of December, 2015.

RE: Permit No.82-12257

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-762-2800.

Sincerely,

A handwritten signature in blue ink that reads "Keith E. Franklin". The signature is written in a cursive style with a large, stylized "K" and "F".

Keith E. Franklin
Program Manager

Enclosure(s)

CERTIFICATE OF SERVICE

I hereby certify that on January 12, 2016 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved Permit) to the person(s) listed below:

RE: WATER RIGHT NO.

82-12257

**DEANNA R LEGG
102 HUNTERS WAY
GRANGEVILLE ID 83530**

**MICHAEL H STICKLES
102 HUNTERS WAY
GRANGEVILLE ID 83530**

**Dianne L Ball
Administrative Assistant**

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

To: Water Right Application for Permit 86-12035 (renumbered from 83-11984)

From: Shaun M. Maxey

Date: December 28, 2015

SUBJECT: Idaho Department of Water Resources (IDWR) Regional Analysis and Recommendation in accordance with Water Appropriation rules (IDAPA 37.03.08.040.05).

Water Supply Information.

Idaho Department of Fish & Game (IDFG) and Idaho Department of Environmental Quality (IDEQ) were contacted and have no adverse comments concerning the Applicant's (STCKLES-LEGG) proposal to divert 0.02 CFS using water from a spring that sinks. Stockwater is the intended beneficial use.

The spring and Place Of Use (POU) are within the Clearwater River basin. There is no information to indicate that use of water from the spring will adversely affect groundwater or surface water, minimum stream flows, or beneficial uses of ground or surface water.

Good Faith, Delay, or Speculative Information.

The POU is on property owned by the Applicant. The spring is located on U.S. Forest Service property. Access to the spring has previously been authorized by a U.S. Forest Service Special Use Permit. A new Special Use Permit is pending.

IDWR is not aware of any information that indicates the Application is not being made in good faith, is intended to delay, or speculative.

Financial Resources Information.

The scope of the project, proposed by the Applicant, appears to be achievable. IDWR has no information that indicates the Applicant is financially incapable of completing the project.

Local Public Interest

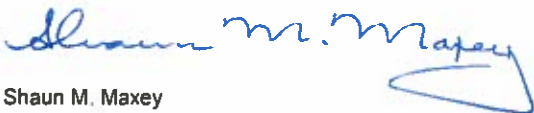

IDFG and IDEQ were contacted on November 30, 2015 and have no adverse comments concerning damage to the public interest. No comments or protests were received indicating the proposal is controversial or likely to cause damage to the local public interest.

Injury to Other Water Rights:

The source of water shown in the Application is a spring that sinks. Diversion of water from this source is not expected to adversely affect water supply in the vicinity or any other water rights.

Recommendation

IDWR Northern Region recommends processing of Application for Permit 82-12257 be allowed to continue.

RECEIVED

12-15-15

DEC 18 2015

Mr. Masey,

IDWR/NORTH

Again I apologize for all the confusion. Enclosed you will find a map and GPS coordinates of a water tank circled in blue. There is also a picture of ~~that~~ water tank, that water tank is no longer in use. The Spring we use is located within 100 feet of the tank. I agree 100% that these coordinates should be used as our spring location and POD.

Also enclosed there is a copy of your memorandum. The forest service personnel that is handling the use permit, pointed out that the words that are highlighted should be POD instead of POH.

The water line that shows being abandoned is the line that we use. It was abandoned by the Forest Service years ago.

Thanks

Mike Stickles

208-983-3782

P.S. you do not need to return any of the material enclosed, I have copies.

Subject: FW: Status of Special Use Permit for Stickles / Legg (SAL 513801)

Steve:

I plan to add the conditions shown below to the Permit if no protests are received. The underlined condition is the one used for Outlet Water Association (97-07521).

This right does not grant any right-of-way or easement across the land of another.

This water right is also subject to the Special use permit approved by the Forest Service as well as other state and federal laws. (Outlet Water Association).

Below is the e-mail I got from Molly back in November.

Sent: Wednesday, December 16, 2015 3:32 PM
To: Maxey, Shaun
Cc: Shinn, Jeffrey -FS
Subject: Application for Permit 82-12257

Shaun,

Application for Permit 82-12257 was filed by Michael Stickles and Deanna Legg. Number 10a of the application shows the property is owned by the US Forest Service. It also references a special use permit. Number 10c where a description of the arrangement enable the applicant to make this filing has an 'X'.

This message is to notify Idaho Department of Water Resources (IDWR) that Michael Stickles and Deanna Legg do not have a special use permit from the Forest Service to occupy and use National Forest System (NFS) land for this purpose. There is a special use permit that is over 30 years old issued to Joseph Wilson. The applicants are working with the Forest Service to acquire a special use permit however the procedures that need to be followed to issue a new special use permit are quite detailed and require evaluation leading to a decision whether or not to authorized the proposed use. It is imperative that any authorization take into account the present situation on the ground. A site visit is warranted to assure all parties know and understand exactly what is being proposed and the possible effect to NFS land. Such a site visit is not possible until next spring.

As you can see it is going to be several months until a decision can be made by the Forest Service concerning this use. Because of this we request that IDWR delay processing of this application pursuant to Rule 45 in the Idaho Water Appropriation Rules 37.03.08, which requires the applicant to have legal access to the property.

However, in an effort not to delay processing of the application, we propose that IDWR include a condition on the permit that it is subject to the terms of occupancy ultimately determined by the Forest Service. This way of doing business has been used previously. It allows IDWR to approve the permit instead of waiting for a Forest Service decision. It avoids a formal protest that results in extra work for all parties involved. And it allows the water development to begin as soon as the Forest Service authorization is approved, the particular terms thereof becoming part of the license conditions if needed.

If you have any questions about this matter please contact me.

Thank you,

Steve

Subject: Water Appropriation, Permit # 82-12257

DEQ received a request for comment on an application for a water appropriation permit to appropriate 0.02 cubic feet per second from a spring located on property in Idaho County. The appropriated water will be used for stock water from January 1st to December 31st. Assuming all federal, state and local permits have been obtained, regulations met, and reviews completed, we offer the following comments.

The spring is described in the application as a sink. Because we assume any water of the State which occurs beneath the surface of the earth in a saturated geological formation of rock or soil to be ground water (Idaho Code 58.01.02.010.45), we assume there to be hydrologic gradient connectivity to surface waters of the State. It is the policy of the State of Idaho Ground Water Management Plan that existing and projected beneficial uses of ground water and interconnected surface water be maintained and protected and degradation that would impair beneficial uses of ground water and interconnected surface water not be allowed.

Thank you for the opportunity to comment on your application. If you have any questions regarding the Idaho Water Quality Standards, please call us at (208) 799-4370.

Sincerely,

Subject: Status of Special Use Permit for Stickles / Legg (SAL 513801)

Hi:

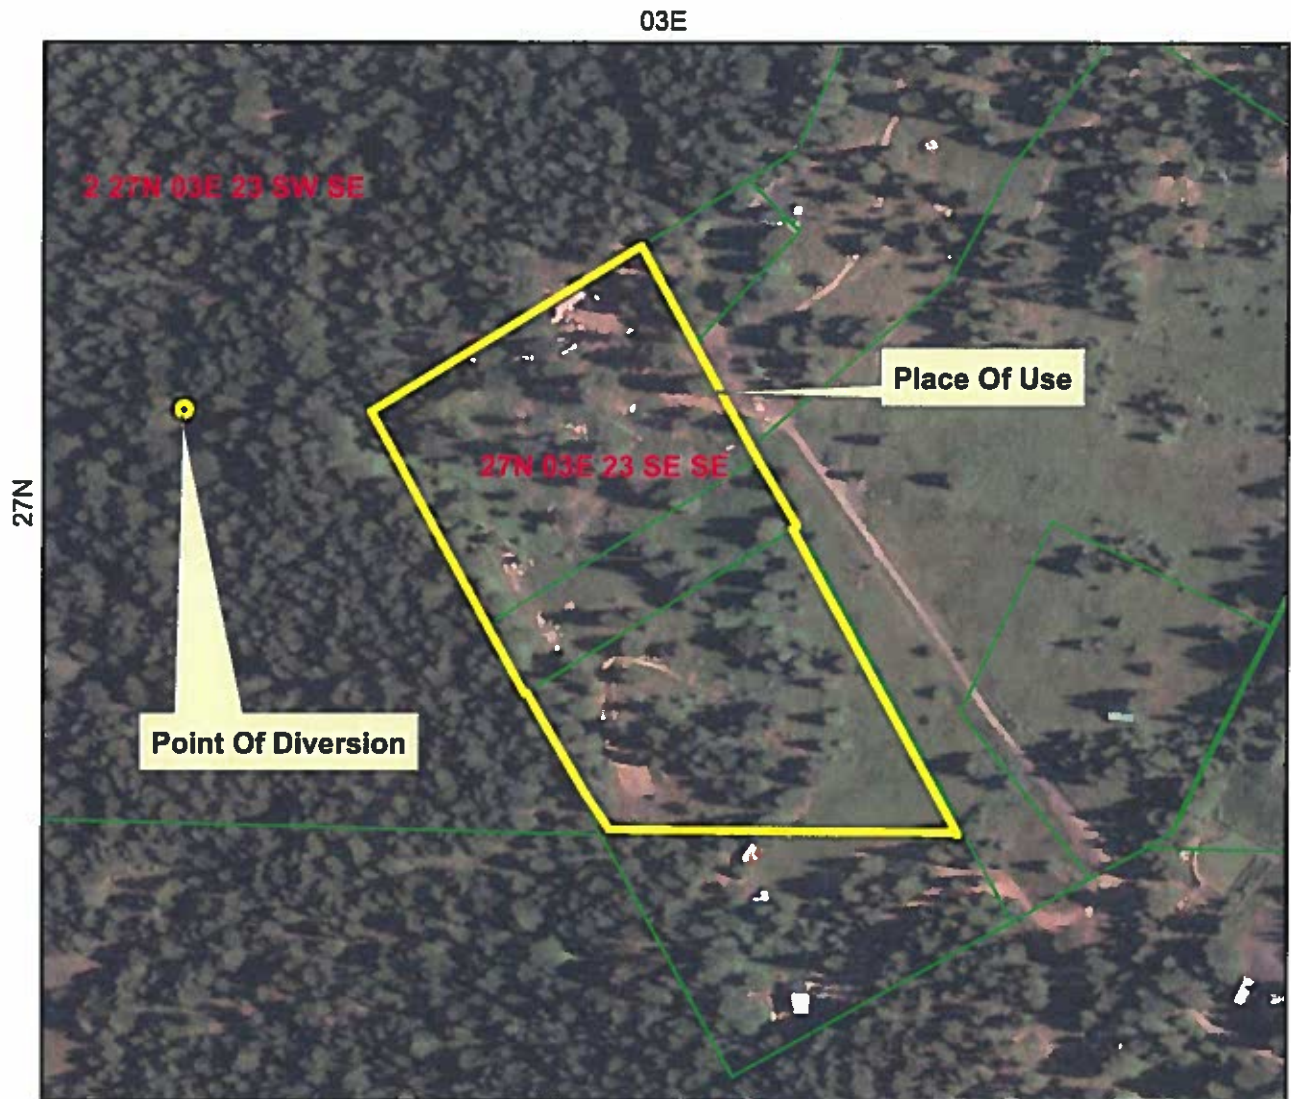

I have received a Idaho Water Right permit application from Michael Stickles and Deanna Legg for a water line near the Adams Work Center in Idaho County. The water line appears to be located in Township 27 North, Range 03 East, Section 23.

Please contact me concerning the status of any special use permits for Stickles and/or Legg in this vicinity. Paperwork attached to the Water Right Application includes a 1984 Amendment for a Joseph P. Wilson to a Special Use Permit issued on 3/29/1982. This 1984 Amendment does not show the number SAL 513801.
