James,

The draft looks fine, and the proposed place of use correction is acceptable.

Thanks,

TJ

Dear Parties,

Because the withdrawal of protest included a number of conditions, I have chosen to circulate a draft prior to signing the transfer approval. If you notice anything that I missed or that needs to be changed, please let me know prior to January 4th.

As we were preparing the transfer approval, we came across a complication. The withdrawal of protest states that the place of use for water right 29-2484 will not change. I forgot, however, that we had discovered a clerical error in the legal description for 29-2484. The acreage amounts for two QQs got switched in the SRBA partial decree. The QQs bordering the highway (SENE and NESE) should list 35 acres. The QQs on the west (SWNE and NWSE) should be full 40s.

<u>QQ in Sec 18</u>	<u>Partial Decree Acres</u>	<u>Correct Acres</u>
SWNE	40	40
SENE	35	35
NESE	40	35
NWSE	35	40

It's a pretty inconsequential change. Because it does not comply with the condition of settlement, however, I think T.J. needs to consent to the adjustment. The actual irrigated acres are not changing in any way. The transfer approval will simply correct the legal description for the place of use.

T.J., could you please respond to this email and confirm that the proposed place of use correction is acceptable.

Thanks,

James Cefalo

James,

I have now spoken with all of the protestants who did not attend the pre-hearing conference in Downey last week and all of them have confirmed that they support the stipulation so you can go ahead with the transfer under the terms of the stipulation.

I very much appreciate your demeanor in IDWR pre-hearing conferences and your encouragement of cooperative settlement agreements. It makes a real and valuable difference.

Thank you.

TJ
