RE: Expiration of Water Supply Bank Rental Agreement for water rights: 29-14106, 29-13827, 29-14054, 29-14055, 29-14056, 29-14080, 29-14081, 29-14082, 29-14012, 29-14013, 35-8001A, 43-13595, 43-13597, 45-2746

Renter,

This letter is to inform you that your rental agreement(s) to rent the above listed water rights from the Water Supply Bank (Bank) expired at the end of 2016.

Once the rental agreement concludes, any diversion or use of water under the rental agreement will no longer be authorized and, if occurring, may be subject to an enforcement action.

If you wish to rent water in the future, please download a rental application from: <http://idwr.idaho.gov>. You may submit rental applications on November 1 of the year prior to the intended use of rental water. **YOU ARE ENCOURAGED TO FILE AN APPLICATION AT LEAST 3 MONTHS PRIOR TO THE DATE YOU DESIRE TO USE RENTAL WATER.**

If you have any questions about this matter, please contact me at (208) 287-4918.

Sincerely,

Remington Buyer
Water Supply Bank Coordinator

Enclosures:

RECEIVED
DEC 30 2015
DEPARTMENT OF
WATER RESOURCES

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right	Priority Date	Source	Tributary	Rented Rate	Annual Rented Volume	Acre Limit	Total Rented Acres
-------------	---------------	--------	-----------	-------------	----------------------	------------	--------------------

29-14012	8/19/1952	Ground Water	NA	1.83 cfs	488.8 af	NA	122.2 ac
29-14013	8/19/1952	Ground Water	NA	2.25 cfs	651.2 af	NA	162.8 ac

35-8001A	10/26/1981	Ground Water	NA	0.10 cfs	20.0 af	NA	5.0 ac
----------	------------	--------------	----	----------	---------	----	--------

43-13595	5/4/1978	Ground Water	NA	0.95 cfs	229.8 af	NA	57.4 ac
43-13597	5/23/1962	Ground Water	NA	0.17 cfs	110.2 af	NA	27.6 ac

Total Annual Combined Limit	0.95 cfs	340.0 af	NA	85.0 ac
------------------------------------	-----------------	-----------------	-----------	----------------

Annual Combined Rental Totals	5.13 cfs	1500.0 af	NA	375.0 ac
--------------------------------------	-----------------	------------------	-----------	-----------------

Term of Rental: This rental is in effect from the day the Idaho Water Resource Board signs the rental agreement and shall be in effect until December 31, 2016

Rental Fee: \$25,500.00

The fee for rental of the above-described water is \$25,500.00 per year. Ten percent (\$2,550.00) will go to the Department for administrative costs, and the remainder will be paid to the lessor(s). No rental fees will be refunded once the fee is collected and the start date for a Rental Agreement has passed.

Detailed water right conditions are attached.

CONDITIONS APPLICABLE TO ALL RENTED WATER RIGHTS

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. This rental agreement does not authorize the construction of a well.
11. The renter must diligently pursue a permanent water right to provide for the uses authorized under this rental agreement.

12. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
13. Use of water under this agreement will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
14. The water use of 43-13595 and 43-13597 under this rental agreement shall not exceed a maximum diversion rate of 0.95 cfs at the field headgate.

STATE OF IDAHO
WATER RESOURCE BOARDAPPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANK

RECEIVED

OCT 29 2015

DEPARTMENT OF
WATER RESOURCESApplicant Name: PEP, LLCIs this application being submitted with a lease application as a lease/rental package? Yes ☒ No ☐

An *Application to Rent Water from the Board's Water Supply Bank* must be completed in accordance with the minimum requirement checklist below to be acceptable for processing by the Idaho Department of Water Resources (IDWR). This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Applications to rent water should be submitted well in advance of the desired start date for the use of water. Rental applications may be submitted as early as November 1 of the year prior to the intended use of rental water. Rental applications submitted more than one year in advance of the proposed start date for water use will not be accepted and will be returned to applicants. Rental applications will not be processed if they are received after the end of the rental season of use.

One rental application per beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources. For multiple beneficial uses of water, individual rental requests should be submitted for each unique beneficial use of water.

For additional instructions on completing a rental application, visit the Department's website at www.idwr.idaho.gov.

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant PEP, LLC

Mailing Address 1356 S., 3000 W. Aberdeen, ID 83210

Email Address pepfarms@gmail.com

Phone Number (208) 709-1645

B. Is this application being completed by an authorized representative on behalf of the applicant?

Yes ☒ No ☐

If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Jason C. Helms

Professional Title P.E.

Organization JCH Engineering & Consulting, PLLC

Relationship to Applicant Consultant

Mailing Address 6755 N. Albert Lane

Email Address jasoncivil@alumni.nd.edu

Phone Number (208) 308-2109

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use, and water diversion, delivery and distribution systems. Make sure the place of use is outlined with an obvious, bolded line. For irrigation purposes, note that the place of use outlined on your map cannot exceed the number of acres you are proposing to rent. Attach the map to this application and label it Attachment 2.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe the purpose of your rental request. Include any anticipated rates of water application, water use practices or number of stock (if any). If the proposed use is not for irrigation, please provide a detailed description of the proposed use and how you determined the amount of rental water required. Attach additional sheets if required and label it Attachment 3A:

Irrigation of (3) 1/4 mile center pivot systems with total irrigation of 375 acres from this well.

B. Enter the desired and/or minimum necessary rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Acres (if applicable) (Acre)
7.50 CFS	1500 AF	5.13 CFS	1312.5 AF	375 AC

Sometimes water rights available for rent provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. Enter the proposed start date and latest possible start date for using rental water. Also provide the number of years you would like to rent water:

Proposed Start Date (month/day/year)	Latest Possible Start (month/day/year)	* Proposed Rental Duration (Max 5 Years)	** For multi-year rentals, indicate whether you desire to rent water for remaining years if a rental request cannot be approved for the first year?
04/01/2016	06/01/2016	max possible	☒ Yes, approve rental for all remaining future years. ☐ No, return rental request if first year is unapprovable.

- * The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.
- ** Subject to the availability of rentable water. A multi-year rental that cannot begin during the first year requested may be approved for some or all remaining years, depending on availability. Rental requests will be returned if no water is available to rent in the first and/or subsequent years of the rental request.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- D. Refer to the map you created in item 2 and specify the location of the point(s) of diversion (POD) from which rental water is proposed to be diverted:

Water Source	TWP	RGE	SEC	¼	¼	¼	County	Other water rights for the same purpose diverted from this POD
Ground Water	04S	30E	34	NE	SW	NE	Bingham	none

The entry in this grid must match the map from item 2 on the application.

- E. Do you own and/or possess the authority to divert water from the above POD(s)? Yes ☒ No ☐
If no, provide documentation from the owner/operator confirming your authorization to use the POD(s) and label it **Attachment 3E**.
- F. Do any POD(s) identified in Question 3D divert from a water source that may require water modeling? Yes ☒ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.
- G. Has water modeling been provided with your rental request? Yes ☒ No ☐
If yes, include as **Attachment 3G**. Otherwise please explain why modeling was not provided:

Rental applications that require modeling will be returned if modeling is not provided.

- H. Specify the proposed beneficial use: ☒ Irrigation ☐ Commercial ☐ Industrial ☐ Municipal
☐ Groundwater Recharge ☐ Mining ☐ Stockwater ☐ Other: _____
- I. Refer to the map you created in item 2 and specify below the places you propose to use water. If for irrigation, specify the number of acres to be irrigated per ¼ ¼ tract. Otherwise indicate usage by marking the ¼ ¼ tracts with the first letter of your proposed use identified above:

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
04S	30E	34	31	31	31	32	31	31	31	32					31	31	31	32	375
The entry in this grid must match the map from item 2 on the application.																			Total Acres (for irrigation)
																			375

- J. For irrigation uses, do you propose a water diversion rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒
If yes, explain the justification for this rate of flow and attach any supporting documents as **Attachment 3J**:

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. Describe your water distribution system and how water will be delivered from the POD(s) to the proposed POU(s):
Existing well, mainline and center pivot systems

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

M. List all other water rights and sources of water at the rental place of use for the same purpose and explain why additional water is required. Include privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company, or any other water deliver entity:

none

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the water rights you are requesting to rent. Otherwise continue to Section 5 of this application form.

Please note: Diversion rates and volumes to be rented from a leased water right must be proportionate to the per acre diversion rates and per acre volume limits of the water right leased to the Bank. Applicants should query a water right's rental availability by reviewing active lease and rental documents, searchable via [IDWR's website](#), to ensure all elements of a water right remain available in sufficient quantity to satisfy a rental request.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany the rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.**

For leased rights with combined limits, applicants should request to rent against the combined limit diversion rate, volume or acre limits.

Elements of Water Rights Leased to the Bank (Contract Details)								Leased totals minus water actively engaged in rental agreement equals rental availability	Rental Request		
Water Right Number	Nature of Use	Water Source	Rate (CFS)	Volume (AF)	Acres (AC)	Start (year)	End (year)		Rate (CFS)	Vol. (AF)	Acres (AC)
29-14012	Irrigation	Ground Water	1.83	488.8	122.2	2016	2016		1.83	488.8	122.2
29-14013	Irrigation	Ground Water	2.25	651.2	162.8	2016	2016		2.25	651.2	162.8
35-8001A	Irrigation	Ground Water	0.10	20	5	2012	2016		0.10	20	5
43-13595	Irrigation	Ground Water	5.00	1209.6	302.4	1995	-		0.95	229.8	57.4
43-13597	Irrigation	Ground Water	0.89	580.4	145.1	1995	-		0.17*	110.2	27.6
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre that have been leased to the Water Supply Bank								TOTAL	5.13 CFS	1500 AF	375 AC

Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it Attachment 4B:

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- C. Does your rental request propose to change the nature of use for any water right(s) being requested? Yes ☐ No ☒
If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented, as well as the new consumptive use amount for your proposed beneficial use. Attach a separate page if space is insufficient and label it **Attachment 4C**:

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☐ No ☒
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:
Continuing rentals from 2013-2015. Pending transfer of 35-8362 has reduced need and demonstrates progress.

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒
If yes, describe:

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒
If yes, describe the date and location of the NOV.

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws.

WATER RIGHT NOS. 29-14012, 29-14013, 35-8001A, 43-13595, and 43-13597**

Dear Renter:

Please find enclosed a receipt in the amount of **\$25,500.00** and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 1500.0 acre-feet of water for irrigation of 375.0 acres during 2016. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Pursuant to the Water Supply Bank Rules, 90% or \$22,950.00 of the rental fee will be paid to the lessor(s) and 10% or \$2,550.00 will be retained by the Department to offset administrative costs.

If you have any questions, please contact me at (208) 287-4946.

Sincerely,

SE Michele Edl

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 29-14012, 29-14013, 35-08001A, 43-13595, AND 43-13597**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$25,500.00 was calculated based on the current rental rate of \$17.00 per acre-foot times a diversion volume of 1500.0 acre-feet.

Please send a check for \$25,500.00 made payable to the Idaho Department of Water Resources, together with the signed rental agreement, within 14 days so I can complete processing. Pursuant to the Water Supply Bank Rules, 90% or \$22,950.00 of the rental fee will be paid to the lessor(s) and 10% or \$2,550.00 will be retained by the Department to offset administrative costs.

If you have any questions, please contact me at (208) 287-4946.

Sincerely,

For - Michele Edl

Subject: RE: request for comment PEP LLC rentals

Michele,

Because of the injury concerns associated with the PEP rentals, I am declining to provide comments (regional/watermaster) in support of or against the rentals.

James

Subject: request for comment PEP LLC rentals

James,

I have completed my review of the 3 PEP LLC rental packages for the 2016 season. I have attached copies of my memos (which are nearly duplicates of each other). I have also attached a pdf which includes a map and two tables which summarize PEP rentals and City of Chubbuck water rights.

Pam helped me find the scanned transfer 80446 documents this afternoon in DOCS (which was not one of the places I looked). So I am more confident now that Mr. Helms sent equivalent information to eastern region and to me. I see that Rental package 2 and the transferred right 35-8362 share 3 pivots in section 32 & 33 and will divert from the same well.

We can't really approve the rentals until we get the lease contracts back from the City of Chubbuck. But I am assuming that they will be returned soon.

When you get a minute, please let me know if you have any concerns about these 3 rentals.

Thanks.

Michele

MEMORANDUM

To: Water Right(s) 29-14012, 29-14013, 35-8001A, 43-13595, and 43-13597.

From: Michele Edl

Date: December 1, 2015

Re: Review & Analysis of PEP LLC Application #1 to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: On October 29, 2015, PEP LLC submitted three applications to rent water from the State Water Supply Bank. Jason Helms (JCH Engineering and Consulting) submitted ESPA modeling in support of the application. Mr. Helms identifies this rental application as #1 of 3.

The rental #1 application proposes to rent all of water rights , 29-14012, 29-14013 and 35-8001A and portions of water rights 43-13595 and 43-13597 to irrigate 375 acres in Twp 4S, Rge 30E, sec 34. The applicant requested a rental agreement with a 5-year duration but the agreement will be limited by the availability of the rights requested (35-8001A). Therefore this agreement will be limited to one year.

AUTHORITY TO FILE: According to available Bingham County taxlot information, the proposed place-of-use is owned by PEP LLC. PEP LLC is listed with ISOS as #W15317. Chris Pratt is listed as a member and he signed the application.

The proposed point-of diversion is an existing well identified by Jason Helms as well #22. The well is WMIS# 1001750. It was the authorized POD for decreed water right 35-7246F, which is for irrigation use. Ownership changes and transfers have moved all PODs away from the well.

No water rights are currently authorized to divert from this well and I found no records indicating that the well has been decommissioned.

WATER RIGHT VALIDITY:

Water Rights 29-14012 and 29-14013 were leased to the WSB when they were transferred to the service area of the City of Chubbuck in 2011. Both rights have been leased to Water Supply Bank on an annual basis since then. They have not yet been used at the authorized POU, which is the municipal service area for the city. A review of aerial photography of the former POUs shows that the water rights have been idled at those locations. Water sufficient to satisfy this rental request is available from the rights. Approval of this rental agreement will exhaust the entire rental availability of both rights.

Water Right 35-8001A has been leased to the State Water Supply Bank for 2012 - 2016. A review of aerial photography shows that the water right has been idled at the authorized place-of-use. Water sufficient to satisfy this rental request is available from the right. Approval of this rental agreement will exhaust the availability of the entire right.

Water rights 43-13595 and 43-13597 were leased to the State Water Supply Bank in July 1995 for an indefinite period. The Lessors have recently updated the term of their lease so that it will end in 5 years. A review of aerial photography shows that the water rights have been idled at the authorized place-of-use. Water sufficient to satisfy this rental request is available from the rights.

INJURY TO OTHER WATER RIGHTS: No injury is apparent. The consultant, Mr. Jason Helms, provided the required modeling of the ESPA. His modeling choices tended to be more conservative than required. My modeling run concurs with the results Mr. Helms provided for this rental package. No mitigation is required.

Similar WSB rental packages, approved in 2013 through 2015 were of concern to the neighbors. IDWR has requested and Mr. Helms has provided reports which analyzed and summarized the combined impact that PEP LLC's 2013-2015 rentals would have on the local ground water hydraulics. Those reports have indicated that neighboring wells would be minimally impacted by these rentals.

ENLARGEMENT OF USE: No enlargement is evident through the rental. The rental agreement will be issued with combined use limits on rights 43-13595 and 43-13597.

Some of rented rights have SOU and field headgate allowances that are more generous than those at the rental location. The rental agreement will limit the use of the rented rights to the standards applicable to the rental location.

LOCAL PUBLIC INTEREST: This application is one of three rental applications submitted by PEP LLC. They are similar to applications submitted by PEP Farms, for the 2013, 2014 and 2015 rental seasons. The previous applications were of some concern to neighboring landholders who also divert their water from ground water.

PEP LLC has purchased WR# 35-8362 and filed Transfer 80446 to change the POU and POD of the right. The transfer provided neighbors an opportunity to formally protest PEP LLC 's use of water rights. The protest period of Transfer 80446 ended November 16, 2015. No protests were received.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The rented right(s) are subject to Water District 120. The watermaster and Eastern Region have been consulted and are not opposed to the rentals.

The three, 2016 application packages are requesting water which was formerly diverted from diverse basins to now be diverted at this location in Basin 35. In cases such as this, IDWR expects additional analysis of the combined impact. Mr. Helms may have calculated the total impact but it is not apparent in the information he provided.

An estimate of the total impact can be made by superposition of the transfer tool results from each modeling run. Specifically, CalculatedEffects columns CW-DG from each modeling run are summed. I ran models of each rental package with the transfer tool and produced results that concurred with Jason Helms modeling. Then I stacked the results of my modeling runs and calculated the total impact using the above superposition method. The summed modeled impact from renting the 15 rights to PEP LLC for 2016 indicates that no additional mitigation is required.

Re: Application for Water Supply Bank Lease & Rentals (PEP, LLC)

Dear Reviewing Agent:

Please find attached several application prepared on behalf of the City of Chubbuck and PEP, LLC offering several existing water rights for lease to the Water Supply Bank and seeking to lease the majority of those water rights in addition to a few other water rights. The water rights offered for lease are similar to those offered in previous years by the City of Chubbuck, however, the addition of a new 1,500 gpm well in the spring will require active use of 29-14099 and a portion of 29-14016 as shown in the attached table.

Submitted in tandem with these lease applications are three rental applications prepared on behalf of PEP, LLC which seeks to continue irrigation of a portion of the lands as approved by previous rentals. This rental amount is also reduced in anticipation of approval of the pending transfer of water right 35-8362 which will provide a permanent water right for the remainder of the land associated with rental #2. Several water rights previously rented by PEP, LLC have been identified once again for use by PEP and we respectfully request the option of using additional City of Chubbuck water rights if the lease status of any of the non-Chubbuck water rights has changed as there is still 51.5 acres available under combined water rights 29-14106 & 29-14107.

As shown in the attached ESPA impact analyses, transient ESPA reach impacts remain within 10% of historically authorized depletions based on the existing points of diversion. I have attached the ESPA Transfer Spreadsheet data entry and graphical results to each rental application for your consideration.

If you have any questions or concerns, please don't hesitate to contact me.

Thanks,

Jason C. Helms, P.E.
