Conditions Applicable to Leased Water Right

1. The water right referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department, even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, nor does it improve the status of the right or accomplish the resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment after the following rental season.
11. The water right leased to the bank is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. When combined with all other rights, the leased rights shall provide not more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.

Subject: WSB Lease for 22-13828 Hufsmith Farm Trust

Kristin,

The Department is in the process of reviewing this lease request. Water right 22-13828 was decreed in 2009.. Aerial photography suggests the portion offered to the Bank hasn't been irrigated since 2009. Use should have resumed in 2015. If the purpose of leasing this portion of the water right to the Bank is to protect it, the lease should start in 2015 and go through 2019. If you have evidence that this portion has been irrigated since 2009 please provide this to the Department. If not, since the Department received your application in 2015 and no irrigation has taken place this year, the lease can start in 2015 and continue through 2019.

Please let me know what your clients would like to do. Thank you.

Re: Applications for Water Right Nos. 22-13828 and 22-13923

Dear IDWR,

Enclosed are two Applications to Lease water rights 22-13828 and 22-13923 to the Water Supply Bank and one application for a transfer of a portion of water right no. 22-13923, each application including a Notice of Change in Water Right Ownership form. Also enclosed is a check in the amount of \$850 for filing fees.

To summarize the proposed applications, a portion of water right no. 22-13923 has been deeded to DMA Family Trust and is being transferred to reflect a new place of use. The new place of use partially overlaps the original POU, but changes the irrigated acres within the quarter-quarter as it will no longer be irrigated by the existing pivot. A new well will also be drilled. The remaining portions of water right no. 22-13923 are proposed to be leased to the Water Supply Bank.

A portion of water right no. 22-13828 is proposed to be leased to the Water Supply Bank also. A Notice of Change in Water Right Ownership form for water right nos. 22-13923 and 22-13828 is included with both lease forms to update the ownership from Guiomar W Hufsmith to Hufsmith Farm Trust, as granted in the Quitclaim Deed attached.

Please contact me with questions regarding these applications.
