EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

The owner of Lot 1 in the subdivision has decided the lot should not be served by this water right. Instead, he will drill his own domestic well to cover his in-house & irrigation needs. So, we must now, again, redraw the map for the 2.5A to be irrigated within the requested PPU. Can you give us another 30 days to do so? It shouldn't take that long, but just in case!

From: Jana Reeder
Re: Evaluation of Sufficiency of Information Submitted

Transfer proposes creating a new 7.7 acre permissible place of use for a ground water right located approximately 5.3 miles south and 1.0 mile east of the city of Ketchum. An existing well and sprinkler system will divert up to 0.1 cfs and 11.8 AF for the irrigation of 2.5 acres in the Grove Creek Subdivision.

The properties and point of diversion are located within Water District 37 but outside the ESPA. Water master comments will be requested. Recommend no advertise.

Note, a 206 map depicting the 2.5 acres within the new permissible place of use has been requested and will need to be submitted before final approval. The 206 map was received on 12/22/2015 via email from Jim Speck.

- **Authority to File:**
The Department's database indicates that the applicant is listed as current owner on water right 37-8474.
- **Water Right Validity:**
Water right 37-8474 was licensed on 11/6/2013. Based on aerial photography, it appears that the acres are irrigated.
- **Injury to Other Water Rights:**
None anticipated or foreseen. Grove Creek Subdivision has existing irrigation system that should not impact other water rights.
- **Enlargement of Use:**
A 206 map has been requested before final approval.
- **Local Public Interest:**
No negative impact anticipated. Application is for existing subdivision.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on the Economy of the Local Area:**
None Anticipated
- **Effect of the Agricultural Base of the Area:**
None Anticipated

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Re: Legal Notice Not Required

Legal Notice Not Required
12/15/2014

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

Dear Mr. Swaney:

A recent review of pending water right applications in our office revealed that you have pending transfer application #79704 in the name of Grove Creek Association filed with our Department. The application was submitted by Jim Speck on December 2, 2014. It appears the intent of the application is to create a 7.7 acre permissible place of use for the entire Grove Creek Subdivision. As filed the application is currently incomplete. A "206 map" showing where the 2.5 acres of irrigation will occur within the new 7.7 acre permissible place of use is still required before the transfer can move forward for final approval. I have enclosed a map of the new 7.7 permissible place of use for your use and reference. Please indicate on the map where the 2.5 acres are that will be irrigated upon approval of the transfer and return it to me.

Please note that this is a final attempt to resolve issues with the application after several failed correspondences over the past year. The department will hold processing of your application for 30 days to allow for the submittal of the "206 map" for transfer application #79704. **After that time, if the adequate information is not received, the Department will initiate the issuance of an order rejecting transfer application # 79704, since the Department cannot ascertain that the change in water use proposed by transfer application # 79704 will not result in enlargement of use for water right 37-8474.** As an alternative, you may formally withdraw pending transfer #79704 by signing the enclosed form and returning it to our office.

Please feel free to contact me at 208-736-3033 if you have any questions.
