Dear permit holder:

The Department is in receipt of your request for extension of time to submit proof of beneficial use for the above mentioned water right permit. On this extension request you have asked for 4 years.

According to Section 42-204, Idaho Code, you are allowed an initial development period of 5 years and only one extension request after that for up to 5 more years. You have already had the initial 5 years allowed under the permit.

This extension request will be considered your last extension request allowed under due diligence or good cause. You could request that the Department modify your extension request from to reflect a 5 year extension in lieu of the 4 years currently requested on your form.

However, in order for me to modify your request for extension of time from a 4 year extension to a 5 year extension, I need written request from you stating that you would like to have your extension request form modified to reflect a 5 year extension in lieu of the 4 years currently stated on the form. A reply to this email could be used as your written request to have your form modified. Please respond as soon as possible, and be as specific as you can in your request.

Once I receive your reply, I will be able to move forward with processing your extension request.

Sincerely,
