Pam,

Question 1: We don't have a "maximum allowable" number of water rights that one individual or one property can have.

Question 2: We started processing water supply bank *leases* on November 1. We have to work on a great majority of those so there are water rights available for individuals in need of water, like yourself – *renters*. Right now, I don't believe the crew has started to process *rentals*. When we process your application, if there are any issues, we will contact you to resolve them or proceed to process it and produce a contract for your signature. The entire process takes some time. I would say to give the Department [208-287-4800](tel:208-287-4800) a call to check on your Water Supply Bank application if you haven't heard from us by the middle of February.

Sincerely,

Ashley Newbry

Hi Ashley...Glad to hear that. I will run the question by you now then as I possibly will not be by a computer on the 4th. Not an emergency, but whenever you can get to it. Again relating to the Hoffman issues.,,Is there a way for you to check and see if the Hoffman Property current water rights (without the ones in question that are "on my dirt") are at the "maximum allowable" allowed for his property? Brian mentioned that if that is so...then possibly these two other rights if acquired by him would possibly exceed his maximum allowable amount and would have to be approved by the IDWR. Just thinking ahead of possible issues that may come up. Also, in regards to my application for the Water Rental, wondering how soon I may know if I am approved or not approved? I did receive a letter stating they had my application and that they would begin processing on Nov. 1 and would be processed in the order received. I am glad you recommended I get the application in asap as I did turn it in in September. THANKS AGAIN. Have a good day. Pam

Hi Pam,

I typically take customer inquiries every other Wednesday, all day. (My next day is Nov 4.) You can also call me at other times, and I will just get back to you when I have some time between assignments/meetings/etc. It might just take me a little longer, that's all.

Talk to you soon,

Ashley

Hi Ashley...When is your next day to "help with water questions"? I have a question but can wait till your day as you are aware of the situation\ and could probably get the info easier. Would appreciate it if you could let me know. Thanks...Pam :-)
