Application for Permit No. 63-34106

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the PRESS TRIBUNE on 1/7/2016 and 1/14/2016. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Dear Mr. Ward:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendation(s) from your agency regarding the above referenced water right application(s). Copy(s) of the application(s) are enclosed with this email for your reference. Please review the application(s), complete the enclosed recommendation form, and submit your reply, if any, to this office by the protest deadline of January 25, 2016.

If your agency desires to formally protest approval of this application, you may do so by filing a written protest along with a \$25.00 filing fee for each protested application by the protest deadline.

IDWR will assume your agency does not object to this application if a timely response is not received. Please contact me if you have any questions regarding the application. Thank you for your help.

Sincerely,

RE: Application for Permit 63-34106

Dear Applicant,

The purpose of this letter is to clarify the quantity of water you are requesting to appropriate for recreation storage, irrigation storage, and irrigation from storage.

First, the quantity of water to be appropriated for irrigation from storage is incorrect. The standard volume of water allowed per acre of irrigation in your area is 4.5 acre feet. Thus, your irrigation from storage amount should be amended to 18 AF.

Also, based on the description of your pond in section 11 of your application form, it appears that your pond is naturally filled by ground water and stays full all year. If this is correct, section five (5) of your application should be amended to include both storage quantities. 20 AF for irrigation storage added to 20 AF for recreation storage equals 40 AF total. This additive amount will ensure that your pond is covered throughout the year, even when you are not irrigating. Amending your application will require an additional \$150 to reach the required permit fee of \$250. A fee schedule is attached for your reference. This change will result in an advancement of your priority to the date when the amended application is received. This being said, the priority date will be within the same year and the few months change should not make a large difference in seniority.

I am returning a copy of your original application with notes showing the area that need to be addressed. Please submit the amended application (with your initials) and the addition \$150 for the application to be processed. The application will be voided without a timely written reply within the next thirty (30) days. Refunds are not issued for voided applications.

I apologize for not discussing this with you when you visited the office in October. Thank you for your patience with the lengthy processing of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you need more information. Thank you for your attention to these matters.

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on July 9, 2015. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- Description of Diverting works was not provided correctly. Please complete section 6b of the form to include the total capacity of the pond.
- Nature of Proposed Use was not provided correctly. Please complete section 7e and describe how you will use your pond for recreation.

A copy of the original incomplete application is enclosed. Please make the necessary amendments to the original form and re-submit within the next thirty (30) days. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

Sincerely,
