Application for Permit No. 63-34165

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the IDAHO STATESMAN on 1/7/2016 and 1/14/2016. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Dear Applicants,

The purpose of this email is to request additional information pertaining to your application for permit for irrigation and domestic uses. Please answer the following questions.

1. Your application proposes a domestic use. Please specify the number of households this will serve.
2. According to the records of Idaho Department of Water Resources (IDWR), your well was drilled in 1993 under a \$35 domestic well drilling permit. Proposed use from your well does require

water right approval, and your water right application seeks that approval. The well drilling fee for a well requiring a water right is \$200 per Well Construction Standards Rules (IDAPA 37.03.09.045.05.b); IDWR must collect the unpaid balance of \$165 for a well drilled under those circumstances. You may pay the required fee now or may opt to pay when you submit beneficial use. Please let me know when you would prefer to pay.

Please let me know if you have any questions.

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on 10/14/2015. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- 5 - Total Quantity was not provided correctly.
Please amend the application so that the total quantity to be diverted is the sum of each proposed use listed in section 4. *adding error fixed*
- 6 - Proposed Diverting Works was not provided correctly.
Please complete section 6 part a, to describe the system you will use to divert water from this source. If you propose to drill a new well please fill out part c to the best of your knowledge. If the well has already been drilled please include any information on the well in part e.

The original incomplete application is enclosed. Please make the necessary amendments to the original form and re-submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

Hi Phill,

Yes, our house is supplied by our existing well. Unfortunately I don't know any details of the well. I will see if I can find anything on it and get back to you.

Also, I give you permission to change the total quantity to 0.10 cfs.

Thanks again for your help.

Hi Toby,

I was going over the application for permit that I drafted for you guys to sign for domestic use and irrigation of your lawn. Unfortunately I discovered I missed a couple of items that need to be filled out and I could not remember the details. Is your water in your home supplied through an existing well? Do you know any details about the well such as the diameter or depth, do you have a well log from when it was drilled? Also it seems I added the amount of water to be appropriated incorrectly. As the application is now, you are requesting 0.04 cfs for domestic use and 0.06 cfs for irrigation (both are standard amounts) so the total quantity should be 0.10 cfs instead of 0.12 cfs. I believe I can change the total to the correct amount with your permission. Please respond with a statement explicitly stating it is okay for the department to amend your application in this manner. Thank you for your attention to these matters and my apologies for drafting the application incorrectly. Let me know if you have any questions.
