Hello,

That sounds reasonable. We will be prepared to discuss it after the Oct. 7th meeting.

Thanks very much,

Ann,

I agree that it makes little sense to hold the Purcell hearing while the other application is in process. However, as an applicant, he has a right to a hearing and because he is now demanding a hearing, I don't have any power to deny his request. When I spoke with Mr. Purcell, he was not planning on hiring an attorney or a consultant or providing any documents at the hearing. I would be okay opening up a small window for discovery if you feel it is needed . . . but in light of the scope of evidence to be provided by Mr. Purcell, the discovery window will be fairly narrow. I would still like to hold the hearing before the end of the year. We can discuss a path forward right after the meeting on Oct. 7th.

James

Hello James,

We received an email from Sharla letting us know that Mr. Purcell has asked for a hearing on his water right application 74-16004. I am concerned about the overlap between this right and right 74-16030. Mr. Purcell is involved in both rights and we are uncertain how the two are intended to interact. I'm not sure it makes sense to proceed to hearing on this right before we know what is happening with 74-16030.

We have a status conference scheduled in 74-16030 on October 7th. Would it be possible to delay setting this for a hearing until after that date? If not we would suggest setting this hearing no earlier than late November or December as we will need time to prepare for trial.

I do not have Mr. Purcell's email address. Please feel free to share this with him as you see appropriate.
