

MEMORANDUM

Date: December 29, 2015
To: Water Right File 23-7158
From: bjordan
Re: License

On July 19, 2001 a licensing field exam was conducted for water right 23-7158. According to the field report there was 2 ponds developed. The large pond covered 4 acres or surface area with a storage capacity of 23 acre-feet. The small pond covered $\frac{3}{4}$ of an acre with a storage capacity of 5 acre-feet. An Amendment of Permit was sent to the water right holder to correct the place of use legal description. On December 28, 2015 the right holder submitted the Amendment along with the \$100.00 filing fee. After a final review of the field exam and the amendment it was discovered that the small pond ($\frac{3}{4}$ acre) is covered by water right 23-11238.

As a result, right 23-7158 will be licensed to only cover the large pond with a surface area of 4.0 acres and a storage capacity of 23.0 acre-feet from ground water.
