RE: Water Right Permit No. 23-7158 Final Notice

Dear Permit Holder(s):

On September 22, 2015 the Department of Water Resources sent you an Amendment of Permit for water right 23-7158 and requested that the amendment be signed and returned within 14 days. The Department has not received the amendment and, therefore cannot move forward and issue a license for the water right. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

☒ **Point(s) of Diversion**

☒ **Place(s) of Use**

☐ **Other**

Enclosed please find another Application for Amendment form which depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 filing fee by January 16, 2015. If we do not receive the Amendment of Permit by the date mentioned above, then we will take the steps needed to void the permit.

If you have any questions, please call me at (208) 525-7161.

Sincerely,

Blake Jordan
Sr. Water Resource Agent
