Good Morning:

I have been holding a transfer application for you for sometime now.. I need to know how you would like to proceed... The last time we discussed this I had sent you an email to let you know that the total acres available for transfer is 124.7 acres and the Department would need to notify each of the property owners under the decreed places of use. You gave me a call and asked that I wait to hear from you – However, I cannot hold the application and money indefinitely... If you would please let me know how you wish to proceed, I would appreciate it.

Thank you,

Good Morning:

I believe I have the transfer application ready to move forward. I am attaching a copy for your records...

A couple of things...

1. The total acres available is 124.7
2. The Department will have to notify each property owner under the decreed place of use. This could open up the application to protests outside of the normal newspaper advertising.

If everything looks ok, please let me know and I will move the application forward. If you have any questions, please let me know.

Thank you,
