Hi Clay.

I split rights 34-282C, 34-452E, 34-2438, and 34-10795 by ownership change today. Jonie will be sending the documentation your way shortly. I wanted to let you know up front that I split the rights in a non-traditional manner. Rather than having the original owner (Bingham) retain the parent right numbers, I split them so that the new owner (McDonald) had those numbers. I did this in order to avoid having to get the new owner to amend the transfer application. Hopefully that doesn't cause a problem for you guys. McDonald owns 33 acres of the 41.6 acres leased by Bingham into the WSB. The Bingham rights are now 34-14526, 34-14527, 34-14528, and 34-14529. Thanks for your help with these. Let me know if you have questions. michael

Subject: Paragraph for Ownership Change on WRs leased to the WSB.

Michael,

Here is the paragraph that we are using on these to show the owners what part of their right is in the bank. The green portion of this is what we have to edit. Thanks.

A portion of water right(s) 63-3599D was leased to the Water Supply Bank (Bank) on July 9, 2001. To date, part of the right(s) appurtenant to 0.99 cubic feet per second (cfs) and 53 acres (15 acres in the NESE, 18 acres in the NWSE, and 20 acres in the SWSE, Section 15, T2N, R3W) remains leased to the Bank. In accordance with the Bank lease acceptance, the lessor or current right holder may not use the right(s) while it is in the Bank, even if the right(s) is not rented from the Bank. This portion will remain in the Bank until **December 31, 2005**, unless the right(s) are released earlier by the Idaho Water Resource Board or upon request by the right holder. **To reduce the term of the lease, the right holder must submit a written request to the department.** The department will verify if the right is rented or available for release, and notify the right holder of the release date.

Sincerely,
Clay Webster
