RE: Change of Ownership for Water Rights 74-467, 74-468, 74-1844, and 74-2158

Dear Water Right Holder:

The department acknowledges receipt of correspondence changing ownership of the above referenced water rights to you. The department has modified its records based on the information received to reflect the change in ownership and has enclosed computer-generated reports for your records.

While reviewing the documentation submitted, I found that there are 3 more water rights which intersect with your property (74-465, 74-469, 74-469A). It appears that each of those water rights would require a split of the water right. The fee to process the ownership change would be \$100 per water right. I've enclosed copies of the water right reports for each of these water rights as well.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see §§ 42-222 and 42-223, Idaho Code.

Also, please note that water right owners are required to report any change of ownership and any change of mailing address to the department within 120 days of the change. Change reporting forms are available from any office of the department or at www.idwr.idaho.gov.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Emalee Rushing
Administrative Assistant
