Re: Transfer Evaluation

Transfer No. 80502 for water rights 29-10171 and 29-7001 proposes to add points of diversion and combine the place of use. Water rights 29-7637 and 29-7636 were recently licensed, this transfer application corrects the points of diversions and place of use for 29-10171 and 29-7001 to correctly reflect the developed use of all four water rights.

Authority to file:

The water rights are currently in the name of R Lloyd Bros. The current place of use is in the name of R Lloyd Bros. The application was signed by Randy Lloyd a representative of R Lloyd Bros, who has signature authority for the company. No security interest is listed on the water rights.

Validity of the Water Right:

Water rights 29-10171 and 29-7001 were decreed on March 22, 2004. Aerial photography shows consistent irrigation. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

No injury to other water rights was identified. The application was advertised, no protests were received. The water master for WD13T was notified of the transfer and did not provide comments.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this transfer application.
