Permit # 67-14611

Mike DeFretas

Ms Block,

I talked to you two weeks ago concerning prod of well completions.

I had mentioned to you, if I'm correct about the measuring device it is not necessary because the pond can be filled in under 24 hours. That info was given to me by a gentleman who used to work for you guys, his name was also, not sure of last name.

When we moved onto this property the 8" culvert was existing and what I've done is stick a 4" piece of culvert into the 8" piece for 3 or 4 hours 1X a week or so. When the pipe is removed, I cover the hole with a piece of metal and bands. Hope this enough information.

Any questions please contact me.

208-253-6263

Joseph M. DeFretas
