Conditions Applicable to All Leased Water Rights

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department, even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, nor does it improve the status of the right or accomplish the resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.

9. In accordance with Idaho Code §§ 42-248 and 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment after the following rental season.
11. The water right leased to the bank is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

RE: WATER SUPPLY BANK LEASE CONTRACT FOR WATER RIGHT 25-14312

Dear Lessor:

Water right 25-14312 was leased into the Water Supply Bank (Bank) as of September 29, 2015, in accordance with the enclosed executed lease contract. **Your water right, as described on the lease contract, is considered leased into the Bank and should remain unused until it is formally released from the Bank.** More information and further restrictions placed on your water right while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The right will automatically be released from the Bank on **December 31, 2019**, unless the right is released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water right from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water right may not be available for immediate release if it has been rented or is being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

Lastly, our review of your water right file revealed that you were supposed to resume use of your water right by September 30, 2015, in connection with an approved *Extension of Time to Avoid Forfeiture* (extension) application. Leasing your water right, in lieu of resuming use of your water right, extends the protection from forfeiture. However, this approach has not been challenged in court as of the date of this letter and the validity of your water right could come into question since according to Idaho Code §42-222 a resumption appears to be a requirement in the process of filing an extension to avoid forfeiture.

If you have questions regarding this matter, please contact me at 287-4910.

Sincerely,

Clay Webster

**RE: REQUEST FOR RETURN OF SIGNED WATER SUPPLY BANK LEASE CONTRACTS FOR
WATER RIGHT(S) 25-14312**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant,

The Department of Water Resources (Department) mailed **two original Water Supply Bank Lease Contracts for your review and signature** on October 29, 2015. The signed contracts have not been returned to the Department.

Please sign both original Lease Contracts and return them to the Department within ten (10) days of this letter to complete processing. The Lease Contract is not considered final until both you and the Department have signed.

If the signed lease contracts are not received by the Department within the 10-day period, the lease application(s) will be returned, and the application fee will not be refunded. You can reapply to lease the water right(s) in the future by submitting new application form(s) along with applicable fees.

Please note the forfeiture period is not tolled unless a right is accepted into the Bank, or unless an exception or defense to forfeiture applies as described under Idaho Code § 42-223. If forfeiture is a concern, you may consider filing an Application for Extension of Time to Avoid Forfeiture of a Water Right form. This and other water right forms are available from the Department's web site at www.idwr.idaho.gov.

If you have questions regarding this matter, please contact me at 287-4910.

10 Narrative		

The place of use is serviced by the municipal rights of the City of Ammon and the Progressive Irrigation District. The application states that the POU will continue to be irrigated from the City of Ammon. By looking at aerial photography, it appears that approximately 1/2 acre is being irrigated at this location.

This right falls outside of the ESPA Common GW area, but within the Model Grid boundary shape.

This right was decreed in 2005. The applicant filed an extension of time to avoid forfeiture in 2010. The evaluation of this extension found that the last beneficial use was 9/30/2005. Resumption of use was due on September 30, 2015. This application was received on September 29, 2015. Forfeiture is not an issue. However, the applicant will need to resume use immediately upon release from the bank to avoid forfeiture.

Subject: Quail Ridge WSB Leases

Clay,

I know you have a pile of these on your desk, so I'll go ahead and address them all in one email. I don't have any concerns or comments on any of the WSB lease applications filed by the Quail Ridge subdivision owners (Basin 25). They made it in the door prior to the resumption date, so I don't think forfeiture is an issue.
