5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future

Water is diverted from the Little Wood River via the East Side Canal and a headgate from the canal to a pond and then piped to the place of use. Measuring device(s) are already installed.

- b. Who owns the property at the point(s) of diversion

N/A

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

No, ☒ If Yes, ☐

Attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien:

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

Land will continue to be irrigated with Little Wood Reservoir shares

- e. Describe the use of any other water right(s) for the same purpose or land, or same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

Little Wood Reservoir shares are used on the current and proposed place of use

2. WATER IS DELIVERED THROUGH EAST CANAL.
3. USE OF THIS RIGHT IS COMBINED WITH WATER FROM LITTLE WOOD RIVER IRRIGATION DIST.

APPLICATION FOR TRANSFER OF WATER RIGHT PART 3

☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.

☐ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**. If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**

1. Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above.:

RE: Transfer No. 79887
Water Right No(s): 37-18

Dear Mr. Simpson:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form as necessary, and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR's regional offices can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Denise Maline
Administrative Assistant

MEMORANDUM

Date: June 1, 2015
To: Transfer 79887 File
From: Corey Skinner
Re: Evaluation of Sufficiency of Information Submitted

Application filed to change the place of use of a Little Wood River right, 37-18, used to irrigate land just north of Carey. The proposed place of use change consists of shifting 6.3 acres between two adjacent 40 acre tracts already described on the decreed right. Since the transfer only proposes a slight adjustment in the place of use, it is anticipated that there will be no hydraulic impact or affect on other water rights. Therefore, it is recommended that the application be processed without any public notice. The right involved with the transfer allows for the diversion of water from within Water District 37N (Upper Little Wood), so water master comments will be solicited.

- **Authority to File:**
The application is filed in the name of Wayne and Marcy Hunt, the current owners of the right involved with the transfer.
- **Water Right Validity:**
The right involved with the transfer was decreed in 2006. Review of aerial photography indicates that the right appears to have been used in recent years.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated.
- **Local Public Interest:**
No issues anticipated.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.
- **Effect on Economy of the Local Area:**
None anticipated.
- **Effect of the Agricultural Base of the Local Area:**
None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

MEMORANDUM

TO: Transfer # 79887 File

FROM: Corey Skinner

DATE: June 1, 2015

SUBJECT: Filing Fee

The filing fee, \$200.00, for this transfer is based on the total amount of water being transferred, approximately 0.11 cfs. Note that the transfer proposes moving 6.3 acres of a 59 acre water right, or approximately 10.6 % of the total authorized acres. Taking this 10.6 % times the authorized flow rate of 1.0 cfs yields approximately 0.11 cfs. The transfer fee schedule for a transfer involving 0.00 – 0.20 cfs indicates that the filing fee is \$200.00.

Re: Legal Notice Not Required

Legal Notice Not Required
6/1/2015

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.
