STATE OF IDAHO

DEPARTMENT OF WATER RESOURCES

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

AMENDED

12-8-15

63-34060

1. Name of applicant(s) Miyasako Farms, LLP Phone 208-337-3003
 Name connector (check one): ☐ and ☐ or ☐ and/or

Mailing address PO Box 1060 City Homedale
 State ID Zip 83628 Email dan@pacificwindinc.com

2. Source of water supply Well which is a tributary of _____

3. Location of point(s) of diversion:

TWP	RGE	SEC	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
3N	4W	02		NW	SE		CANYON	WELL	D0064443

4. Water will be used for the following purposes:

Amount 1.72 cfs for Irrigation purposes from 1 March to 15 Nov. (both dates inclusive)
 (cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
 (cfs or acre-feet per year)

5. Total quantity to be appropriated is (a) 1.72 cubic feet per second (cfs) and/or (b) _____ acre feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. 8" steel pipe and turbine pump

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No

e. If well is already drilled, when? 2013; drilling firm Riverside, Inc.
 well was drilled for (well owner) Rown farms, LLC; Drilling Permit No. 962380-868439

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW. _____

b. Stockwatering; list number and kind of livestock. _____

c. Municipal; complete and attach the Municipal Water Right Application Checklist.

d. Domestic; show number of households _____

e. Other; describe fully. _____

WATER RESOURCES
WESTERN IRRIGATION place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
3N	4W	02	41			8 40									40 6			12 18/15	87

Total number of acres to be irrigated: 87

- Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?

- Who owns the property at the point of diversion? Rown Farms, LLC
- Who owns the land to be irrigated or place of use? Miyasako Farms, LLP
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: Mutual between both parties. contact Jon watson or Brad Watson from Rown farms.

- Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

Water to be used as supplemental when irrigation(surface) water is short like in 2015 irrigation season. Also, when water is not available from irrigation district. this Application proposes to divert ground water for irrigation purpose from the water bearing zone 185 ft to 348 ft. Turbine pump set at 300 ft. In Basin 63. Water first encountered at 73 ft but well is bentonite sealed from surface to 94 ft and cement sealed from 94 ft to 185 ft.

- Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).

- MAP OF PROPOSED PROJECT REQUIRED - Attach an 8 1/2" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

RE: Application for Permit No. 63-34119
 Application for Permit No. 63-34114
 Application for Permit No. 63-34060

Dear Legal Notice Department:

Please publish the enclosed legal notices on the dates indicated (once a week for two consecutive weekly issues). If you cannot publish the notices on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 1/4/2016. Your cooperation is appreciated.

Sincerely,

Rachel Neely
Administrative Assistant

Enclosure(s)

The following applications have been filed to appropriate the public waters of the State of Idaho:

63-34119

RYAN HOOD
HOLLY HOOD

Application for Permit No. 63-34060

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the PRESS TRIBUNE on 12/17/2015 and 12/24/2015. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

A handwritten signature in black ink, appearing to read 'Rachel Neely', is written over a horizontal line.

RE: Application for Permit No. 63-34060

Dear Applicants,

The Idaho Department of Water Resources (IDWR) received your application for permit requesting a new ground water right in Canyon County received on May 13, 2015. The purpose of this letter is to request additional information pertaining to your application. Listed below are items needed before the processing of your application can continue.

1. Please amend the following items on your application.
 - a. The point of diversion listed on #3 is incorrect. Well D0064443 is located in the NWSE of 03N, 04W, Section 2. A copy of the well drillers report is enclosed.
 - b. The period of use date listed on #4 for irrigation purposes should read March 1 to November 15.
 - c. The amount listed on #4 for irrigation is incorrect. The diversion rate must be in cubic feet per second. This should be a single number rather than a range. For 86 acres, you would be allowed to apply for .02 cfs per acre for a total diversion rate of 1.72 cfs. This will increase the fee amount the Department requires as shown on the attached fee schedule. The original application was received with \$250 to appropriate 86 af. To appropriate 1.72 cfs a fee of \$290 is required. Please submit an additional fee of \$40.
 - d. The amount listed on #5 must match the rate listed on #4 once it is amended.
 - e. The place of use listed on #8 is incorrect. Your application states the quarters have corrections lines and this needs to be addressed. Through my review I have found that the NENE of Government Lot 1 is 41.17 acres, the SENE is 40 acres. In addition to those quarters your tax lot expands into the NESE of section 2 covering about 6 acres of land. The acre amounts do need to be amended on all appropriate locations on #8. If you do plan to use groundwater in the NESE, please add this to #8 with the correct acres totals as well. If the NESE is added as a POU, please identify the all POU's and POD locations on the enclosed blank map. Please note, round acres when applicable.
2. The proposed irrigation area is in water basin 63 which requires applicants to describe the water bearing zone for their wells. This is not on the original application, but is important to know for advertising purposes. Your water bearing zone would be between X amount of ft, where water was first encountered or where the pump will be set in the well, and X amount of ft, the depth of the well.

To promote the processing of your water right application, please address and submit all documentation and fees requested above within thirty (30) days. Please let me know if you need additional time. If you have questions regarding this matter, please contact me at 208-334-2190.

Sincerely,

A handwritten signature in cursive script, appearing to read "Rachel Sommer".

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your amended application on May 7, 2015. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- Place of Use or acres irrigated was not provided correctly. The number of acres to be irrigated in each 40-acre tract must be shown. Based on the map you included, the squares for the NENE and the SENE should read '43' instead of '1/4'. Because your quarters are bigger than the standard 40 acres, it would be helpful if you wrote a comment in section 11 that states that your quarters have correction lines and are, in fact, 43 acres each.
- The Signature and/or Title were not provided correctly. The department requires an original document. Please send an application that includes the signature of the applicant.

The original incomplete application is enclosed. Please make the necessary amendments to the original form and re-submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

Sincerely,

Western Region Water Rights Staff

(cfs or acre-feet per year)

5. Total quantity to be appropriated is (a) cubic feet per second (cfs) and/or (b) 86 acre feet per year (af).

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. 10 foot 8 inch steel pipe and turbine pump

b. Height of storage dam feet; active reservoir capacity acre-feet; total reservoir capacity acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 11. For dams 10 feet or more in height OR reservoirs with a total storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No

c. Proposed well diameter is inches; proposed depth of well is feet.

d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No

e. If well is already drilled, when? 2013; drilling firm Riverside, Inc

well was drilled for (well owner) Rown Farms, LLC; Drilling Permit No. 962380-868439

7. Description of proposed uses (if irrigation only, go to item 8):

a. Hydropower; show total feet of head and proposed capacity in kW.

b. Stockwatering; list number and kind of livestock.

c. Municipal; complete and attach the Municipal Water Right Application Checklist.

d. Domestic; show number of households

e. Other; describe fully.

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
3N	4W	02	1/4																43
3N	4W	02				1/4													43

Total number of acres to be irrigated: 86

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?

10. a. Who owns the property at the point of diversion? Rown farms, LLC
- b. Who owns the land to be irrigated or place of use? Miyasako Farms, LLP
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: Mutual between both parties. Contact Jon Watson or Brad Watson from Rown farms.

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

Water to be used a supplemental when water is short(like the 2015 irrigation season). Also when the water is not available from the irrigation district.

12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).
13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on March 18, 2015. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- Point of Diversion(s) was not provided correctly. Please correct section 3 to include the correct section. This should be a number 1 through 36 based on the legal description.
- Type of Use was not provided correctly. Please correct your application to read 'irrigation' instead of 'supplementary' in section 4.
- Place of Use or acres irrigated was not provided correctly. The number of acres to be irrigated in each 40-acre tract must be shown. See the attached guidance document for an example.
- The Map was not provided. Please attach an 8 ½ by 11" map that identifies the point of diversion, place of use, section number, township, and range. A mapping tool is provided on the Department's website for your convenience at <http://maps.idwr.idaho.gov/map/>.

The original incomplete application is enclosed. Please make the necessary amendments to the original form and re-submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

d. Domestic; show number of households _____

e. Other; describe fully. _____

8. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
3N	4W	2	1/4			1/4													86

Total number of acres to be irrigated: 86

9. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping?

10. a. Who owns the property at the point of diversion? Rown farms
- b. Who owns the land to be irrigated or place of use? Miyasako Farms
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: mutual between both parties.

11. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary.

Water will be used while there is no water available from irrigation district. Expecting a short water year for 2015.

12. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.
