Date: August 6, 2015

On August 6, 2015 Steve Hutchings of the LDS church called to say that they had received the letter I sent on June 25, 2015. I requested more information about the status of surface water right 74-1816H. During the phone call I explained to Mr. Hutchings that while we do not watch for forfeiture, we were looking at the status of the surface water right in the context of licensing permit 74-7391.

He asked about putting 74-1816H into the water supply bank. This right was decreed in 2007 and to Mr. Hutchings knowledge it has not been used since. There are two wells on the church property drilled in 1999 and 2000.

Re: Application for Permit No. 74-7391
Water Right 74-1816H

Dear Applicant:

I am processing your application for permit from ground water for the property located at 91 Highway 28, Salmon, Idaho. During my review I noticed that there is an existing surface water right at the same location. Right 74-1816H from the Lemhi River has a priority date of June 1, 1871. According to the recent email correspondence that I have had with Clayton Pope, surface water is no longer used at this location.

Under Idaho Code 42-223 a water right may be subject to forfeiture after 5 years of non-use. Can you tell me when the water was last used? If the right has not been used please let the Idaho Department of Water Resources know what steps have been taken to protect the right. Has the right been sold or otherwise transferred? Please submit information about the status of Lemhi River water right by July 15, 2015 to protect this right from forfeiture.

If you have any questions please contact me at (208)287-4881 or at sandra.thiel@idwr.idaho.gov.

Sincerely,

Sandra Thiel
Sr. Water Rights Agent

Hello, I am working toward licensing the water right for the LDS church on Highway 28 in Salmon. You submitted proof of beneficial use for that right in 2010 and are listed on the proof statement as the permit holder. I wanted to be sure that I have the correct information for the water right license. Currently the address and phone number that I have are:
Church of Jesus Christ of the Latter Day Saints c/o Scott Neilson AIA
P.O. Box 2212
Idaho Falls ID 83403
(208)522-8779

Is this correct? I have attached a copy of the water right report.

Hello, I have another question about water use at the church. Surface water right 74-1816H from the Lemhi River is also for irrigation at the same place of use as water right 74-7391. Do you use surface water to irrigate?
