9. No Well driller's report - 1972 well - no report
10. No Within a water district? (WD#)
11. ☒ Volume Calculation
Standard domestic volume = 1.2 acre-feet per year
12. ☒ Other information

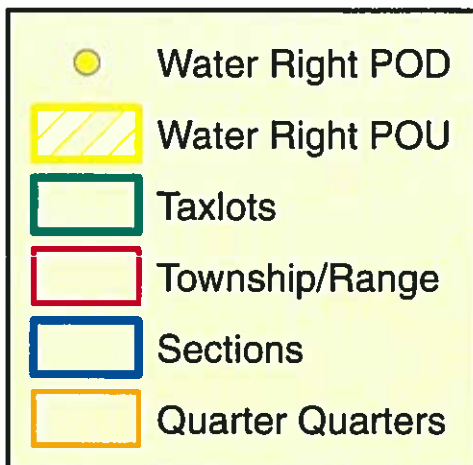

Spoke with Kelly Anderson, son of Elwin Anderson, about the water system. Ground water well is located in the triangular parcel south of Pocatello Creek Road. Well is visible in aerial photos. The well pumps water to a storage tank on hillside above homes. Water from storage tank is piped to two homes (Parcels R3851014007 and R3851014200). The home on the northern-most parcel is a double wide trailer, which is already covered by domestic right 29-7690. Permit 29-7690 was filed by Elwin Anderson's brother, DeWain, and appears to be a duplicate application. Permit 29-7691 contemplated domestic use for two homes. However, if the double wide trailer is already covered by water right 29-7190, then only one domestic use was actually developed under Permit 29-7691. Another ground water well is located immediately east of the Anderson well. The well to the east is used to supply water to Parcel R3851014100 (Horn). Many of the other homes in the area are on city water.
