Re: Application for Permit 63-34139

Dear Lori:

You recently filed a water right application with the Idaho Department of Water Resources (IDWR) proposing to divert waste water for irrigation. IDWR must determine if the water you wish to appropriate is waste water available for appropriation or whether it is "live" water under control of an irrigation delivery organization to satisfy downstream users. The irrigation organization(s) in your area appears to be Riverside Irrigation District and Eureka Ditch Company No. 2.

The waste water status in your area can be determined by providing written consent from the correct irrigation delivery organization confirming if the water does or does not remain under its control for other users. Also, please provide written confirmation of a right-of-way to use the waste ditch or waste drain if that conveyance is owned by the organization or by some other person or entity.

Please provide the requested information within sixty (60) days. You may request up to six months additional time if necessary. The application will be voided without a timely written response. Refunds are not issued for voided applications.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to these matters.
