DEPARTMENT OF WATER RESOURCES

Transfer No. 80534

MINIMUM REQUIREMENTS CHECKLIST TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at www.idwr.idaho.gov.

Name of Applicant(s) Mitchell D. Sorensen and Elaine R. Sorensen

Check whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.

Yes N/A * Means the item is always required and must be included with the application.

- ☒ ☐ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a Part 2A report describing each water right in the transfer as currently recorded.
- ☐ ☒ Complete and attach an Application for Transfer Part 2B for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. (Fee schedule is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). **
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☒ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm.
- ☐ ☒ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☐ ☒ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see fee schedule.
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☒ ☐ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. (Attachment WSB)
- ☐ ☐ #10 Other. Please describe: _____

A. PURPOSE OF TRANSFER

1. ☒ Change point of diversion ☐ Add diversion point(s) ☐ Change place of use
☐ Change nature of use ☐ Change period of use ☐ Other _____

2. Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part 1A.2**.

The purpose of this Application for Transfer is to change the point of diversion for Water Right No. 34-2424B. This transfer is necessary because the Applicant does not have authorization from the owner of the well where the point of diversion is currently located to divert his water right from that well.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

**APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1 Continued**

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:
A new well will be drilled that will be used to divert water to Boyd Burnett's place of use and also to an open ditch that carries water to the Timberdome Canal that will carry the Applicant's water to his place of use. A measuring device and controlling work will be installed as necessary.

- b. Who owns the property at the point(s) of diversion? Boyd Burnett
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
The Applicant has entered into an agreement (see attached) to drill a new well with Boyd Burnett which will be used to divert the Applicant's water right and Boyd Burnett's Water Right Nos. 34-14167 and 34-14169. Boyd Burnett has filed Application for Transfer No. 79938 to move the point of diversion for these water rights to the proposed new well.

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?
If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: _____

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?
If yes, ☒ complete Attachment WSB.
- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:
Water Right No. 34-2424A is diverted at the current point of diversion. As explained above, Water Right Nos. 34-14167 and 34-14169 will also be diverted at the new point of diversion.

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

**APPLICATION FOR TRANSFER OF WATER RIGHT
ATTACHMENT WSB:
TRANSFERRING WATER RIGHTS LEASED TO THE WATER SUPPLY BANK**

Approval of a transfer application will not impact the terms of a Water Supply Bank Lease Contract. Any transferred water right or portion of a water right that is leased to the Water Supply Bank (Bank) shall remain unused while the lease is active.

If the transfer proposes to relocate the place of use of an irrigation water right, and the relocated acres include land currently idled due to a Bank lease contract, the applicant is required to identify the areas that will be idled at the new place of use for the duration of the lease contract. The acres to be idled should be clearly identified on the map created for Attachment 7B of the transfer application. The applicant should confirm the map is attached when completing the table below. If the leased portion of the place of use is not proposed to be relocated, a map is not required.

A Bank lease contract shall remain in effect until it expires, a new lease proposal is processed to replace it, or the water right is released from the Bank through written confirmation issued by the Water Resource Board. If the proposed transfer is approved, the water right owner will be provided sufficient time to allow the lease contract to expire before beneficial use of water at the new place of use will be expected. Meanwhile, water rights leased to the Bank are protected from forfeiture for the duration of the lease contract.

Water right owners who would like to adjust the terms of their lease contracts can either submit a new lease proposal on an Application to Lease a Water Right to the Water Supply Bank form, or they can request early termination of their lease contracts by completing a Request to Release a Water Right from the Water Supply Bank form. If a water right is leased to the Bank, and it is currently being rented from the Bank, the lease cannot be reduced or terminated until the rental agreement concludes. A request to release a water right or to submit a new lease application should be sent to the Department's state office. To find out if there are any rentals associated with a leased water right, please call a Bank representative at the Department at 208-287-4800.

In the table below, please provide the requested information for any water right that is both proposed for transfer and leased to the Bank. The information needed to complete this table can be found in your Bank lease contract. A copy of your lease contract can be obtained using the 'Search Water Rights' option on the Department's internet page at www.idwr.idaho.gov or by contacting any Department office.

Attachment #9 (WSB)

October 6, 2015

To: Idaho Department of Water Resources

From: Boyd Burnett *SANDRA P. BURNETT*

Subject: Mitchell and Elaine Sorensen Transfer Application (Water Right No. 34-2424B).

I am the owner of Water Right Nos. 34-14167 and 34-14169. In March of 2015, I filed an *Application for Transfer of a Water Right* for Water Right Nos. 34-14167 and 34-14169, which was assigned the administrative number of 79938 (hereinafter, "T79938"). The purpose of T79938 was to add a new well location on my property as an authorized point of diversion for my water rights because I was denied the ability to divert from the currently-authorized point of diversion for my water rights by Nate Carpenter. The new well location is in the NESE of Section 29, Township 05N, Range 26E, in Butte County, Idaho.

T79938 was protested by Nate Carpenter and others and is scheduled for a hearing. During the pendency of the proceedings associated with T79938, I determined that it would be in the best interests of me and Mitchell Sorensen to jointly construct and own the new well sought by me under T79938. In order to accomplish joint construction of this new well, it will be necessary for Mr. Sorensen to amend a water right he owns—Water Right No. 34-2424B—to include the new well location as an authorized point of diversion for Water Right No. 34-2424B.

I hereby consent to the transfer filed by Mitchell and Elaine Sorensen to amend Water Right No. 34-2424B to include a new well location on my property for this water right.

RE: *Application for Transfer of Water Right No. 34-2424B*

Dear Blake:

Enclosed for processing is an Application for Transfer of Water Right No. 34-2424B owned by Mitchell and Elaine Sorensen. The purpose of this Transfer is to change the point of diversion for this Water Right because the Sorensens do not have authorization from the owner of the well where the point of diversion is currently located to divert water from that well. A new well will be drilled that will be used to divert the Sorensen's water, as well as Water Right No.s 34-14167 and 34-14169 owned by Boyed Burnett. The Sorensens have entered into an agreement to drill the new well with Boyd Burnett. Boyd has already filed Application for Transfer No. 79938 to move the point of diversion for his water rights to the proposed new well.

If you have any questions regarding this Application, do not hesitate to contact me.

Best Regards,

Luke H. Marchant
