57-10579 & 57-10785**

Dear Applicants,

The Department acknowledges the receipt of correspondence changing ownership of the above referenced water rights to you. The Department has modified its records to reflect the change in ownership and has enclosed computer-generated reports for your records.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the Department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right, to the Department. Notice of the change must be provided to the Department within 120 days of the change. Change reporting forms are available from any office of the Department, or at www.idwr.idaho.gov.

Regarding water right permit **57-11846** this water right is still in the permit stage; therefore, the enclosed Assignment of Permit must be completed, signed by the current owner of the permit, notarized, and submitted to our office before we can complete your request. The fee you submitted with the ownership change request will be transferred over to the assignment of permit.

Because the Department cannot process this request at this time, we will hold any action on your notice pending receipt of the necessary documentation. If we do not receive the required documentation within 30 days, a refund will be requested and the notice will be returned.

Thank you for your patience and cooperation. Please call me if you have any questions concerning the enclosed information.

Sincerely,
