

MEMORANDUM

Date: November 3, 2015

To: Transfer 80396

From: Scott Bergendorf

Re: Transfer Analysis

Applicants propose to change the point of diversion for water right 15-7110. The current point of diversion is at a well that is no longer usable. Applicants seek to drill a new well and abandon the current well.

Authority to File:

The applicants are the current owners of the water right per IDWR record and owners of the proposed POD per Oneida County taxlot data.

Water Right Validity:

Water Right 15-7110 was recently licensed in 2015. Forfeiture is not an issue.

Injury to Other Water Rights:

The POD is proposed to be moved approximately 1/3 mile to the northwest. Transfer was advertised and no protest were filed.

Enlargement of Use:

The proposed change will not result in enlargement of use. Neither rate nor acres will increase as a result of the transfer.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
