RE: WATER SUPPLY BANK LEASE CONTRACT FOR RIGHT 25-14308

Dear Lessor:

Water Right 25-14308 was leased into the Water Supply Bank on September 29, 2015 in accordance with the executed original Lease Contract enclosed. **Your water right as described on the Lease Contract is considered leased into the Bank and should remain unused until it is formally released from the Bank.**

Our review revealed on September 30, 2015, you were supposed to resume use of your water right pursuant to Idaho Code § 42-222. The Water Resource Board has accepted your lease proposal in lieu of filing a notice of resumption. However, this approach has not been challenged in court as of the date of this letter and the validity of your water right could come into question since the law is specific that a resumption appears to be a requirement in the process of filing an extension to avoid forfeiture.

Since the application to place this right into the water supply bank was received one day prior to the resumption of use deadline, the applicant must be ready to resume use the day after this right is released from the bank.

The right will automatically be released from the Bank on **December 31, 2019**, unless the right is released earlier by the Board, or upon your request. **Please note your right may not be available for immediate release if it has been rented.** To release the right from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available from our public website at www.idwr.idaho.gov.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says: "While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact me at 287-4910.

Sincerely,

Clay,

I know you have a pile of these on your desk, so I'll go ahead and address them all in one email. I don't have any concerns or comments on any of the WSB lease applications filed by the Quail Ridge subdivision owners (Basin 25). They made it in the door prior to the resumption date, so I don't think forfeiture is an issue.

RE: APPLICATION(S) TO LEASE WATER RIGHT(S) 25-14308 TO THE WATER SUPPLY BANK

******TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right(s) to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The rights will automatically be released from the Bank on **December 31, 2019**, unless the rights are released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your rights may not be available for immediate release if they have been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

MEMORANDUM

To: Water Right No. 25-14308
From: Clay Webster
Date: 10/22/2015
Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: This application was received on September 29, 2015 to place the entire water right into the Water Supply Bank from Lon Pyper.

The place of use is serviced by the municipal rights of the City of Ammon and the Progressive Irrigation District. The application states that the POU will continue to be irrigated from the City of Ammon. By looking at aerial photography, it appears that less than ½ acre is being irrigated at this location.

This right falls outside of the ESPA Common GW area, but within the Model Grid boundary shape.

AUTHORITY TO FILE: This application was signed by Lon Pyper, the current property and water right owner and designated applicant.

WATER RIGHT VALIDITY: This right was decreed in 2005. An extension of time to avoid forfeiture was filed and accepted in 2010. The review of the extension found that beneficial use had occurred 9/30/2005. Resumption of use was due on September 30, 2015. This application was received on September 29, 2015. Forfeiture is not an issue. However, the applicant will need to resume use immediately upon release from the bank to avoid forfeiture.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: There are several small irrigation rights in the local area that are appurtenant to other lots (See Attached). It also falls within the Progressive Irrigation District Large POU. No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right is not subject any Water District.
